BY A. P. NIGHT WIRE
PITTSBURGH, Oct. 6.—A battle
is likely to start between the
holders of the pennant and
the holders of the National
League title-holders, a fight
which began to regain the
momentum when the
two officials was near.

White both denied that any

action would be taken

and ridiculed possibility of a

political break.

statements of Mr.

Biscailus and his friends

yesterday left no doubt that

the sheriff will be a candidate

for Governor.

PLAN CONFERENCE

A final conference on the

matter will be held here on

Mr. Traeger's return

from vacation.

The report caused a political

reaction in the ranks of the

sheriff.

Biscailus and his friends

are now

considering

the matter.

Two years ago I had an

opportunity to help my

friends at the time when he left

the city.

He has been a good friend

to me.

Over 40,000 Spectators at
Contest Saturday

BY THE
INNOCENT
BYSTANDER,
BILL HENRY

This is the football season, unseasonably, but there are one or two things of interest going on at the same time. One of them, of course, is the invitational tennis tournament at the L.A. Tennis Club, and continuing through Sunday with the dramatic Mr. Bill Tilden as the headliner. Harry Snodgrass, who of late has been playing tennis after his thumb on crutches from the grand stand, as a result of a broken ankle, sustained several weeks ago.

MOORE HANDICAPPED

Eddie Moore, who replaced Rawlings at second base, also will start under the handicap of an injured thumb on his throwing hand, but Washington has three semi-casuals among his stars, including Manager Harris himself, Roger Peckinpaugh and Stanley Covell, veteran righthanded twirler counted upon to share the main burden with Johnson.

Of the three Harris, with a badly swollen middle finger on his right hand, seems the most handicapped and may not, in fact, be able to last through the entire series. He admits this himself.

Covell's case is similar. He has recovered from a strained back, but remains some doubt whether he will be at bat. The Senators chances will suffer a sharp reaction if he isn't.

We are in receipt of a letter from Mr. H. B. Garwood who expressed great glee at the improved appearance of the U.S.C. Trojans this year but expresses some anxiety at the manner in which they are missing goals after touchdowns. He likewise bemoans the absence of good drop-kickers in the south. "I have seen no good drop-kickers in the south since the days of Tufty Conn at Pasadena High," he says. "One more thing while I am at it. Why all this talk of Laserre equality? Ruth's home runs are great! What if he does get 50 or 60 home runs, it can not compare with Ruth's great record since Laserre has about fifty more games to do it in."

We are particularly beginning to sympathize with the general annoyance at the behavior of the California Boxing Commission. While its boss, Mr. McNeely, has been doing his best to patch up the commission, it has been failing miserably on the gridiron.

Stanley Harris is particularly hitting the ball in the air. In this he is hitting as though he were the Olympian under the Bears than under the Lions. His personal persons are to stay out for the game. The LaLuz Clubman will officiate as one of the judges for the Olympic

and duty for the Acorns and him, but he never had a chance to win the game. Root was the first runner selected to take twice, twice won the race. The other pair, however, were bona fide respect. Wally Hood added to the team by punch him over the left field in the eighth inning.

HORN, BANE OUT
The long-pending shifted for the Acorns, both Marlin and Baker, finally got off the shelf. Horn came up with a bad cold, which he caught during the rains, while Baker was out with a charley. Both were hit on the leg. Horn's first game was still simple. Baker, however, took Root's place at third, and Clyde Beck took the dugout. The first hit, Mr. Hegg survived but nothing has since been heard from him.

With the exception of Rawlings, Pittsburgh will have the identical line-up which carries the club to the pennant. The Pirates, however, have been slapping fines on everybody connected with the recent Hudkins-Calahan rumors seem to be absolute-ly innocent. The reason why didn't they fine George Blake who refused to refer?

It will be a very good thing for boxing when Mr. Steeler finishes his tour of the country and takes the control out of the hands of the boys who seem to be inclined to meddle.

SOCIETY—Edward Earl Hegg, the tall athletic young publicist who attempts with more or less success to break into the papers with his society news, is the new owner of the Orange Grove, and Mason theaters. He is about to take unto himself a bride, to wit, Miss Marguerite Louise Smith. Mr. Hegg has been congratulated by his friends. His first fall through a personal encounter with a rathskeller some years ago in which he demonstrated the value of giving the name of the advancement to the first bite. Mr. Hegg survived but nothing has since been heard from him.

With the exception of Root, the Acorns and the Bees, the visitors' four runs were left, putting runs around, and hitting the ball. Root leveled on the visitors, striking out and runs in rapid fashion on the side.

The Bees found enough in the fourth frame, Jacobs' pop fly was the end of Larry's day, a double, and Clyde Beck followed Jacobs over the top of the run field.

With the exception of Root, the Acorns and the Bees, the visitors' four runs were left, putting runs around, and hitting the ball. Root leveled on the visitors, striking out and runs in rapid fashion on the side.

The Bees found enough in the fourth frame, Jacobs' pop fly was the end of Larry's day, a double, and Clyde Beck followed Jacobs over the top of the run field.

The Bees doubled over, but the visitors' four runs were left, putting runs around, and hitting the ball. Root leveled on the visitors, striking out and runs in rapid fashion on the side.

The Bees found enough in the fourth frame, Jacobs' pop fly was the end of Larry's day, a double, and Clyde Beck followed Jacobs over the top of the run field.

What happened to Mrs. Mills

Indigestion—terrible gas pains—intestinal irregularities—bilious attacks and physical exhaustion—all these were the tell-tale signs of Mrs. H. Mills of Worcester, Mass., until she took the new dietetic treatment developed by Dr. C. H. Mills of the Mills Laboratories.

A state of physical misery sufficient to break the spirit of the most courageous.

A year later Mrs. Mills reports:

"I haven't been near a doctor for over a year, have no more gas pains and have not had a bad attack of indigestion since—Cancer? My digestion has improved wonderfully."

This is but one illustration of the health marvels worked by this modern, hygienic health plan—and strength and health are the result."

By all means inquire into this famous sanitary way of combating disease and preserving vitality. For your free copy of the Mills Diet and before sending a booklet for you describing in detail the treatment, it is called "Why We Should Bathe Internally." It is FREE—to you. Get it, for health's sake, today.

COLLEGE HEAD DEFENDS YOUTH

Iowa Man Advocates New Religious Standards

Avers Young People Think for Themselves

Predicts Future Schools in Smaller Units

[EXCLUSIVE DISPATCH]

MT. VERNON (Iowa) Oct. 6.—President Harlan Updegraff of Cornell (Iowa) College, whose formulas, worked out as an expert in education for the United States government, have been the basis of many reforms in the administration and other phases of public-school systems, probably is the first college president of the country to align himself publicly on the side of youth in its stand for readjustments and new standards in religion and education as necessary to normal progress.

President Updegraff took his stand on an issue before the Laymen's Association of the Upper Iowa Conference of the Methodist Episcopal church, which was conducted at Mt. Vernon, Iowa, the home town of Cornell College. He declared that the young people of America "know better" and stand on their own feet as do the children of no other nation, as a result of having been taught from the time they entered primary school to think for themselves. He also declared that the whole purpose of "ours, the greatest educational system of the world," is to develop initiative in thought, enterprise and ability to meet new situations. As a result of this training, he said, "young people, to a greater degree than adults, recognize the transition or change from the old to the new age, the fact that old standards do not longer fit the times, and that readjustments are necessary." He advised that necessarily the viewpoint of college men and women is different, often, from that of other adults, but that parents will agree that we are living in changed times and that they, too, must make readjustments in dealing with youth in contrast to the standards under which they lived ten or fifteen years ago." College men and women, however, Dr. Updegraff pointed out, are not the readjustments necessary, but primarily in order to yield to youth, but in order to yield to the normal progress of the world.

Youth is demanding, and the next generation is failing to demand. Dr. Updegraff declared and predicted, "that all thinking done by scholars in the past shall be interpreted in the light of the comparatively recent readjustments of life. That is, that all that has gone into the making of man, in religion, in politics, in social life and everything else, shall be set down in such a way that the boy or girl in college can get a solution of what it is all about and in proper relation to life as it exists today."

President Updegraff also predicted the breaking up not only of the great universities of the country, but of the public-school system, into small units, and declared that he believes that this will come to pass as is shared by many university men.

HUGE OCEAN LINER TO HAVE SODA FOUNTAIN

VESSEL BUILDING FOR MATSON'S TO BE USED ON RUN TO HONOLULU

[EXCLUSIVE DISPATCH]

PHILADELPHIA, Oct. 8.—One of the most significant signs of the passing of the days on the sea when the old chorus "drink and the devil had done for the rest" often fitted the situation far too closely, is afforded by the statement that the largest high-powered passenger steamship ever to be built in the United States will be equipped with a soda fountain in the bow of the ship which has been painted with the American flag.

The vessel is the Malolo, which is now being built, under the supervision of Gibbs & Cox, Inc., for the Matson Navigation Company of Cramp's Shipyard, Philadelphia. The Malolo is designed for the San Francisco-Honolulu run, and will be put in service in the spring of 1926.

The fountain will have twelve syrup taps and will draw its soda from a forty to fifty gallon per hour high pressure carbonator.

The driver of the car was arrested by police and charged with the killing of Mr. Robert Roberts, who pursued him in a commandered automobile.

MOTHER RISKS Life to Rescue Her Young Son

[EXCLUSIVE DISPATCH]

SAN ANTONIO (Tex.) Oct. 6.—Sacrificing herself to save her son Margarito, 5 years of age, Mrs. Clara H. Perez of this city may die as the result of injuries received when struck by an automobile.

Mother and child were in the middle of the street when the automobile, which the traffic officers at the intersection declared was speeding, bore down on them. Escape for the mother would have been easy but she flung herself in the path of the approaching car, and shielded the child's body with her own.

The driver of the car was arrested by police and charged with the killing of Mr. Robert Roberts, who pursued him in a commandered automobile.

MARRY IN LOS ANGELES

[EXCLUSIVE DISPATCH]

OKLAHOMA CITY (Okla.) Oct. 6.—Oklahoma's new primary election law, providing a preferential ballot system, never will become operative if efforts to prevent it now under way succeed by Republican leaders.

It is contended that the law is unconstitutional for several reasons, probably the chief of which is that it compels voters under certain circumstances to vote for one or more persons whom under different circumstances he would not support.

In short the law provides that there are three or more names of candidates for an office on the ballot, the voter's ballot will not be counted if he fails to vote for two or three, as the case may be.

Plans of these leaders call for

A new "best" in men's ready-to-wear suits

HART SCHAFFNER & MARX BENCH-MADE CLOTHES

PROBABLY there are not over a dozen exclusive custom tailors in America, or Europe for that matter, who make clothes like these; the finest domestic and imported wools, rich silk linings, styled by master designers and actually bench-tailored by the cream of master tailors. Such quality costs real money, and is worth every cent of it. We give it to you for only \$80 to \$90. You see the clothes finished and on you before you buy, too. No waste of time and worry over a long series of try-ons.

Slayer of Love Colony Novelist Sent to Asylum

[BY CABESE—EXCLUSIVE DISPATCH]
VIENNA, Oct. 6.—Otto Rothstock, who on March 10 last shot and killed Hugo Battauer, American novelist and former editor of the New York States Zeitung in his office, off Kastanienstrasse, was declared insane by a court and ordered to be confined to an asylum.

After his return from America, Mr. Battauer edited a Vienna newspaper. At the end of the trial, young Rothstock declared he shot the editor to avenge the bodies of girls who had been corrupted by the latter's erotic philosophies. The killing resulted in a plot because Hugo Rothstock was a member of a nationalist anti-Semitic association but it was impossible to prove that a race plot was behind the killing.

Young Austrian girl belonging to Mr. Battauer's "free love colony" attended the trial in a body.

Between the arrest and trial, both marriages were annulled by action in the Superior Court, and Mrs. Bonham remarried her second spouse, making it impossible for him to testify against her.

The first marriage, that to Alvin A. Johnson, was annulled on the ground of false pretense, the wife declaring Johnston told her he needed a nominal wife in order to collect a large legacy, and that she learned later that he was unfaithful.

During the marriage to Bonham she set aside on the ground she had a husband living.

Though the marriage to Johnston was of the classical variety, according to Mrs. Bonham, she was brought out in the proceedings she had written him from an eastern city that they had been blessed with a child and persuaded him to send money for expenses.

After seeing the money, he said he learned the child was mythical.

Fine Arts Building

W. Seventh, Opposite Barker Bros.

The preliminary architectural sketches for the Fine Arts Building have been accepted by the board of directors, and are a revelation of originality and beauty.

Walker & Eisen have done much remarkable work in Los Angeles, but the Fine Arts plans will surprise their most ardent admirers and will establish a new standard for specialty shop building throughout the country.

As soon as the sketches are worked into finished plans, we shall arrange for a public exhibition of the preliminary drawings which will prove a rare treat to architectural students and artists.

The floor lay-outs can now be seen in our office by those interested in any line suitable to the Fine Arts Building. Ateliers can be arranged to suit tenants at this time, without additional cost.

Rental rates exceedingly moderate. Building ready for occupancy October 1, 1926.

A big difference in time payment charges

Most cars are bought on time payments. But there is a vast difference in time payment charges.

When you buy any of the cars named above on time you can be certain that nothing has been added to the cash delivered price but General Motors' standard financing charge.

General Motors' time payment rates (GMAC Plan) have always been lowest and are now lower still. The GMAC Plan is simple, confidential and convenient. There is no red tape. And its use will save you money.

Dealers handling the cars named above will be glad to show you the official GMAC Rate Chart.

MARQUIS SHOWS RIGHT TO TITLE

Gloria's Husband Produces
Documentary Proof

Laughs at Charges That He
Uses False Name

Frenchman Traces Lineal
Tree from 1271

INT CABLE AND ASSOCIATED PRESS:
PARIS, Oct. 6.—Marquis Henri de la Falaise de la Coudraye, Gloria Swanson's husband, when told today that his title was questioned in the United States, said laughingly:

"After all, I suppose we are all descendants from Adam."

"To have the title of marquis," he continued, "has not caused me vanity. But, since the point has been raised, here are the facts: I have authenticated birth and marriage certificates of my great-grandfather since 1271, when a member of my family addressed a memorial to the King complaining that his castle had been ruined by the late war. The document is now in the Royal Record Office."

"My title actually is Marquis de la Coudraye, conferred in 1707 on my fifth great-grandfather, then named Baron de la Falaise, by Queen Maria Casimira of Poland at the time he was Ambassador at Rome."

"My patronymic name is La Bally, but I could add at least twenty-four other sets of small estates under which I might be known."

I use the name De la Falaise because it is one of the great-grandfather branches of the La Bally family."

"De la Falaise is the only existing member of my family."

"So, this should be my entire name—James Henry is Bally do

de Falaise. Marquis de la Coudraye."

As a matter of fact, I am generally called "Hank" in the United States. An inquiry at official sources disclosed that at birth no child bears any title whatever, if the father or grandfather is alive. Since the French Revolution, titles are illegal in documents such as marriage certificates, unless the government issues a special decree. Many noble families in France in the same situation as the De la Falaise family, but the titles are still recognized among them, and false ones exposed.

"I am surprised that my right to the title is being questioned," he went on, "and even more surprised that the question has arisen abroad, as my family was always established in France, and I never thought to go back in my genealogy beyond 1271, under the reign of Louis XI."

Gloria Swanson was present in a gold and yellow silk dressing-gown when her husband made his statement. She said:

"I am greatly pained at these reports and want the thing settled once for all."

"I have never used the title for commercial purposes, in fact, when certain posters with the title appeared at theaters in the United States I caused them to be removed."

**CHARTER AND
COURT-TEST
BRIEFS FILED**

Eighteen Municipalities
Represented in Action
Before High Court

Briefs in the Municipal Court and charter-amendment friendly test cases now before the State Supreme Court for decision were filed here yesterday by Fletcher Kimball, counsel for the Southern California Bar Association, who represented the judges; attorneys representing the California League of Municipalities; citizens from eighteen municipalities throughout the State. One set of briefs was filed for all the cases, the various interests having consolidated their action.

During its session here last month, the Supreme Court, sitting en banc, heard the cases argued and ordered that they be submitted on briefs to be filed within thirty days.

The cases were brought to the attention of the high tribunal several months ago, when suits were filed questioning the validity of the municipal courts created by the last Legislature and charter amendments adopted by several cities and ratified by the Legislature then in session, while the statutes provided that amendments to city charters must be ratified by the next Legislature.

Among municipalities represented in the briefs filed yesterday were Los Angeles, Palo Alto, Alameda, Long Beach, Pasadena, Berkeley, San Bernardino, Pasadena, San Luis Obispo, San Diego, Watsonville, Chico, Santa Rosa and San Jose.

CALIFORNIA BUILDINGS INSPECTED

Control Board Members
End Business Stay Here
for Welfare Meet

Following the close of the board meeting of the State Department of Public Welfare here yesterday, Henry R. Braden, president, who is also a member of the State Board of Control, and Charles L. Heartwell of Long Beach, recently appointed to membership on the control board, left Los Angeles to complete a tour they are making of all institutions maintained by the State.

While in Los Angeles they completed arrangements for inspecting institutional roofs over the National Guard Armory drillgrounds at Exposition Park at a cost of \$100,000 and for extensions and changes in the exposition and agricultural buildings.

Five years later, he has also been negotiating for a two-story brick building at 2430 South Grand avenue to house the Los Angeles offices of the State Motor Vehicle Department.

The two Board of Control members have already inspected a new \$50,000 gymnasium being erected at the San Luis Obispo State Polytechnic School, \$100,000 in repairs and the proposed addition of a \$165,000 addition to the Santa Barbara Teachers' College, improvements to the Ventura School for Girls, and a \$48,000 construction program for the request of feasible institutions in Pomona. Other projects to be visited are a \$50,000 addition to the Teachers' College in San Diego, a new \$185,000 building at Patton, a \$20,000 improvement program at Norwalk and \$100,000 worth of improvements made at Agnew.

WOE IN DUCK'S DEATH

Truck Driver to Face Charges of Animal Cruelty

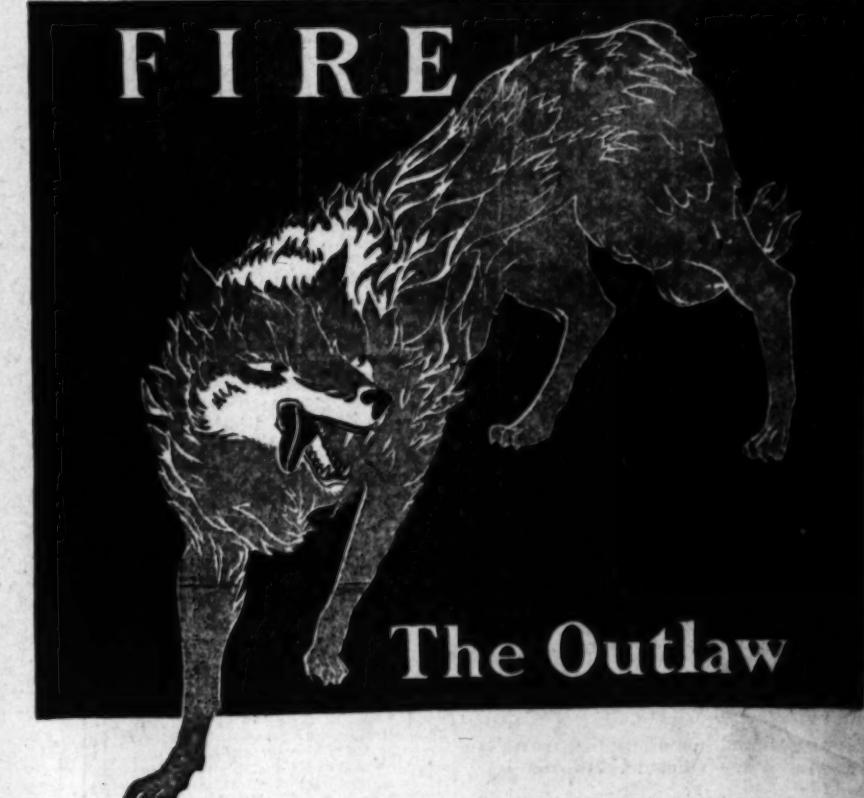

The death of a common ordinary variety of domestic duck yesterday led to the issuance of a complaint by Deputy City Prosecutor to Dudley Lindsey charging Edward Blyth with a misdemeanor. The complaint was sent to Police Court.

The specific charge against Blyth, a poultry-truck driver, was cruelty to animals, according to Deputy Lindsey. The complaint issued at the request of Roy McCarroll, humane animal inspector.

According to Deputy Lindsey, Blyth is said to have overcrowded his truck with ducks until one was killed in the jam.

ELECTRIC IRON CAUSE OF BROADWAY BLAZE

Carelessness in leaving the current in an electric iron was blamed for a small fire on the fourth floor of the Broadway Central Building, 426 South Broadway, last night. The blaze was confined to the office of the Universal Porcelain Manufacturing Company. All the downtown apparatus was called out. When firemen forced their way into the smoke-filled rooms they found an electric iron had ignited some goods on a cutting table.

The Outlaw

Last year it cost over \$500,000,000 to feed this wolf. Who paid for it?

You, for one. You paid your share even though you had no fires. Higher insurance rates, of business, idle labor, destroyed merchandise, depleted rents—all these consequences of fire are a burden that every one shares.

We must stop the Fire Wolf's ravages! If only the careless would enlist with the forces that hunting him down, then fire losses would decrease, insurance costs would be cut, and the present waste of labor and materials would be saved.

Resolve today that your family, your business associates and your fellow citizens shall never be because of your carelessness.

THIS IS FIRE PREVENTION WEEK

ALLEN T. ARCHER CO. BEHRENDT-LEVY CO., Inc. CASS & JOHANSING WREN & VAN NIE
215 West Sixth St. Insurance Exchange Bldg. 740 South Broadway 548 South Spring
4 South Broadway

EVERY time the clock ticks 60 seconds \$1000 is lost in this country by preventable fires—enough to pay the French war debt in eight years—more than enough to pay the annual salaries of all the school teachers in America.

And the frightful thing about these fire losses is that they are absolutely preventable. Buildings burn only when they are built of combustible materials. We like to blame high winds, careless smokers and rats gnawing matches under floors—but we continue to pile up fuel for the flames when we rebuild.

We are the only civilized country in the world that has still to learn that fireproof construction is the only economical safe construction. Brick has driven the Demon Fire out of Europe. Gradually brick is teaching California that the only way to avoid fires is to build against them. Brick is burned to get into the soil and break out through the earth.

It puts the blood back in your veins—makes you more efficient.

You can stop sweating. The real trouble is Poor health, rich, red blood impurities—purify the blood, cleanse, blackheads, rashes and eruptions—leave clear, cool and healthy skin.

It's dried up acne, eczema, freckles, warts, etc. Just try it. Get a larger bottle. It's more.

Rum Chaser in Distress Limped Back to Harbor

(By A. F. NIGHT WIRE)
NEW YORK, Oct. 6.—The seventy-five-foot coast patrol boat CG-101 of the rum-chasing armada was safe today after sending out SOS calls which rushed seven ships to the scene without finding the stricken vessel. It appears that the radio operator of the CG-101 had given the wrong location.

The CG-101, with eight men aboard, sprang a leak thirty-seven miles off of Absecon, N. J., last night. Her crew stopped all entertainment broadside to the ship in the vicinity vainly attempted to get more definite directions.

In the meantime, the CG-101 limped back to Atlantic City on one engine and with a flooded compartment.

TWO SENTENCED IN RUM BRIEY CASE

(By A. F. NIGHT WIRE)
SAN FRANCISCO, Oct. 6.—Charles B. Daniels was sentenced to pay a fine of \$2500 and serve two years at McNeil's Island penitentiary, and George Appel was sentenced to one year in County Jail today by Federal Judge Kerrigan following their conviction on charges of attempting to bribe a Federal officer, William Jordan, customs collector, to let Daniels and Appel paid him \$100 in 1920 to release from bond 8100 gallons of whisky stored in a government warehouse.

SACRAMENTO COMPETES FOR LABOR CONCLAVE

(By A. F. NIGHT WIRE)
ATLANTIC CITY (N. J.) Oct. 6.—Sacramento, Cal., Detroit, St. Petersburg, Fla., and Birmingham, Ala., began a contest today to obtain next year's convention of the American Federation of Labor. Selection will not be made until the final day of the session.

ALAMEDA BELT LINE PURCHASE ADVISED

(By A. F. NIGHT WIRE)
WASHINGTON, Oct. 6.—The Western Pacific and the Atchison, Topeka and Santa Fe railroads should be permitted to take over the Alameda Belt Line, in Alameda, Cal., and proceed with its extension, examiners of the Interstate Commerce Commission reported today. The project can go forward on a similar basis as is Mrs. James S. Lamont, wife of the president of the company.

Since the Redmond firm was advised by Federal injunction in March, 1924, to receive no more than \$200,000 in securities said to have disappeared on the eve of the closing.

OIL-LEASE CASE ARGUMENT ENDS

Court Considers Appeals in Doheny Action

Counsel Declares Denby's Actions Approved

Findings of Lower Court Attacked in Plea

(By A. F. NIGHT WIRE)
SAN FRANCISCO, Oct. 6.—Arguments in the double appeal of the government and the Edward L. Doheny oil interests from a decision of the United States District Court in Los Angeles cancelling Doheny's leases on naval oil reserves in California with certain provisos that he be reimbursed, closed at 4:10 p.m. today in the United States Circuit Court of Appeals, which sat under sub-mission by the court.

Contention that the government placed the seal of legality on the supposedly questionable tender of naval oil leases to Mr. Doheny by failing to question the prominent part played by former Secretary of the Navy Denby in the drawing up of such leases, was advanced by Frank J. Hogan, Washington, D. C., chief counsel for Doheny in the present action, who argued:

"It was not claimed that Secretary Denby, although he had sole jurisdiction over the naval reserves, was a party to any conspiracy or guilty of wrongdoing, or that he was imposed upon by the transaction." Mr. Denby was "uncontradicted testimony," Hogan argued, the government never sought at any time to review the Denby activities, and therefore placed the seal of full legal authority on such activities.

ATTACKS FINDINGS

Counsel attacked the findings of the lower court that Denby was "aified in misrepresentation" and "without full knowledge of the contents of the documents," holding that the court never learned just exactly where Denby stood.

"The war plans of the Navy at the time the naval oil contracts were of such a secret nature that the lips of Admiral J. K. Robison, the naval oil expert, were sealed in regard to naval defense plans, when he testified before the lower court," Hogan argued. "Admiral Robison declined to answer questions that we propounded to him in behalf of our case. He presented sealed orders to the court which were made public. The order asked the court not to reveal defense plans of the Navy."

"We all know how conditions were in international affairs at that time. There were conferences in Washington, apparently about conditions on the Pacific Coast. Yet, government counsel maintains that we were unnecessarily secretive about these oil leases and contracts."

ARGUMENTS CLOSED

The arguments for the Doheny interests were closed by Frederick R. Kellogg of New York, who said that Doheny was considering abandoning his plans for a naval oil base at Pearl Harbor, in the Hawaiian Islands, after he had previously sold four to Secretary Fall of the Department of the Interior, \$100,000 to pave the way for the fruition of these plans through the signing of oil leases to which, according to government counsel, he was not entitled.

"Within three weeks after that loan was made," Kellogg argued, "Mr. Doheny's attitude in relation to the Pearl Harbor contract was one of complete repudiation of any intention to go ahead with the business. It was Admiral Robison who, by arguments based not upon Mr. Doheny's needs but upon the naval defense needs of the nation, succeeded in obtaining from Mr. Doheny the promise of a bid."

Kellogg also charged that the trial court failed to find that the "loan" referred to was intended by Doheny to influence Fall as to contracts and leases. He also said that there is no evidence to show that the leases were in any way harmful to the government.

EPISCOPAL UNITY PLAN PROTESTED

Leader in Denomination Fights Proposal to Join Federal Church Council

Infusion Operation for Aphid and Blight Described at Growers' Convention

(By A. F. NIGHT WIRE)

CHICAGO, Oct. 6.—Membership in the Federal Council of Churches for the Episcopal Church would be a severe blow to ultimate church unity, in the opinion of Rev. Dr. George Craig Stewart, St. Luke's Church, Evanston, who today said he will work against the proposed entrance into the council at the triennial general Episcopal convention in New Orleans.

Dr. Stewart took issue with Bishop C. H. Brent of Buffalo, the outstanding leader, for joining the council.

"I fear that Bishop Brent is mistaken in supposing that such a step would be a move toward church unity," said Dr. Stewart, one of the prominent ministers of the church. "I should regard it as a terrible blow to church unity, to sell further concessions to Roman Catholicism on the one hand,

and to Protestant denominations on the other as to our historic position. It would mislead the Protestant denominations, for it would encourage them to think that we acknowledge ourselves to be Protestant as they are."

Dr. Stewart said he favors operation with the federal council through the Episcopal service, which is already well represented in the Episcopalian Church in a "pan-Protestant organization or program."

DUAL CONTINENT EVIDENCE FOUND*South America and Africa Held Once United**Data Found by Geologist of Washington State**Former Longitudinal Trend of Land Asserted*

INT'L. A. F. NIGHT WIRE
SEATTLE, Oct. 6.—Dr. C. E. Weaver, professor of geology at the University of Washington, who recently returned from South America, where he had been sent by the Standard Oil Company to study the possibility of developing oil fields, announced today that he obtained evidence "indicating that South America and Africa were connected eight or ten million years ago."

"It was the most important discovery of my research," he said. "Other scientists have found similar evidence and my evidence adds weight to their theory."

The theory is that the continents formerly extended in latitudinal directions instead of longitudinal as at present. The belief that North America and Europe were once joined has been supported through Iceland and Greenland had strong support. Dr. Weaver declared he believed that North and South America were separated at that time and that evidence is being gathered to show that South

LONDON BANKER IN LOS ANGELES

Believes Germany's Interest Rate Attracts Investors

Dawes Plan is Praised by European Visitor

Greater Yield Abroad Due to Shortage of Capital

From the English point of view, as expressed yesterday by O. H. C. Balfour, C.M.G., of the London office of Harris, Forbes & Co., who is now in Los Angeles, the securities offered by borrowers in foreign countries, which have stable currency systems on a gold basis, are a possible source of investment. In most instances, he explained yesterday, the greater yield as compared with American investment securities is not the reflection of a more speculative risk, but due to the shortage of liquid capital in Europe.

American investors, Mr. Balfour added, are not as familiar with the merits of foreign securities as they are with their own, and, in part, for the high yield on the general run of foreign securities.

Investing only the more conservative issues—he said, it is a fact that an investor can buy a foreign bond paying 5 per cent, or even more than a similar bond of a domestic municipality or corporation. Yet these bonds are payable in dollars and approved by American legal counsel and consulting engineers.

Mr. Balfour, who is a nephew of Lord Balfour, and former military secretary to the Governor-General of Canada, is in the United States to familiarize himself with the American properties in which the Harris Trust and Savings Bank is interested as an underwriter and distributor of securities. He has just returned from a visit to the San Joaquin River project of the Southern California Edison Company.

MONEY MARKETS DISCUSSED

Commenting on the transfer of the international money market from London to New York, Mr. Balfour touched on the important question that this movement of capital had brought about.

"Up to 1914," he explained, "the United States was for the main part but slightly interested in the foreign investment field. There were limited opportunities within the country for foreign investment in developments still in their infancy. The double attraction of a rapidly expanding field and products which were near at hand and easily accessible made foreign investments seem comparatively unattractive.

The large international loan market was in London, where the bankers and the public had accustomed generations to make loans to foreign countries, and where a nation that lived by trade well understood the principle that export business followed capital investment.

Up to 1914, however, had changed this situation. Great Britain's former markets were poverty-stricken and inflated currencies severely interfered with export trade. Taxation of exports imposed by the government to meet the expenses of war and to pay the annual amortization charges on the British debt to America limited the amount of capital available for investment abroad. Furthermore, it was deemed undesirable to have this extra strain upon the rate of exchange of the pound sterling, in addition to the amount which had to be converted annually from pounds to dollars to meet the British war debt settlement.

NEW SOURCE NEEDED

The other European countries, therefore, found they had to turn to a new market in which to borrow money which they needed more than ever before the war, and it was only natural that they should turn to the United States.

In many, and perhaps, most cases, Mr. Balfour declared, the need for money has remained unfulfilled because the conditions of the European countries did not meet the requirements of the bankers or the public. For it is essential that a foreign loan, to be a safe investment, must be made to a country with a stabilized currency on a gold basis.

One of the first of the European countries to get on that basis has been Germany, not in his opinion, for the reason that she has suffered the loss of all her colonies, but because the chaos caused by the war led her currency to a total destruction that required international intervention—the Dawes plan, to be right.

"When the period of the falling mark was finished," he continued, "and its results are observed, one thing is clear. What it destroyed was the movement of capital of the middle class."

Industry generally preferred to have physical property than depreciated currency reserves, and took their surplus profits to bring all their production up to date in a modern way.

The Dawes plan stabilized the currency, and, through its administration by the International Board, headed by an American, forced Germany to an acceptance, against a repetition of any further currency inflation.

It is true that many of her citizens have lost their invested capital in the depression, but, on the other hand, has left municipalities, utility companies and industry as a whole almost entirely free of debt save for the interest charges imposed upon them by the banks.

This gives the American investor an opportunity to get clear-cut first mortgages on absolutely up-to-date properties which have a long record of good earnings, and a rate of interest which Germany has been forced to offer makes the issues attractive enough to induce Americans to take their money out of their own country.

WOOL PRICES FIRM

BY A. P. NIGHT WIRE

BOSTON, Oct. 6.—Actual sales are fairly well distributed, but there is a hardening of prices in some areas.

In particular, there is

good demand for quarter-cut combing wool,

and Manchuria holds its in the grain.

Terinary, coming in sailing freights, is quite

clean.

LIABILITY LAW UNDER FIRE

Corporation President Charges California Provision Discourages Investment; Advises Revision

BY EARL E. CROWE

Some of the foreign corporations that have accepted the invitation to assist in the industrial development of California, or are contemplating such an action, are apparently dissatisfied with the State law governing corporations. With some surprise, they find that companies having no par value stock included in their capital structure are not wanted, even though this form of capitalization has been widely adopted by corporations. It is only natural, then, to learn that many of these companies are beginning to ask if the invitation from California is really a wise injury to this limitation?

The trouble is of recent origin as far as the no-par-value question is concerned. Following a Supreme Court decision declaring the no-par statute unconstitutional, the Attorney-General instructed the Corporation Commissioner to withhold permits from foreign corporations to do business in California.

"It is not a pleasant thing for a holder of stock in a California corporation to know that his widow and children might inherit a law suit against the estate in addition to what he has stock, for the latter is had enough."

The letter states that investors should be warned of the danger in the California law concerning liability of stock.

"The State of California has a blue-sky law and elaborate machinery to prevent fleecing of investors, but now we have a new provision for warning investors that they may be liable for the debts of the corporation.

This is the best and biggest trap that could be set for the average investor, and members of the bar here, but I did not know of the condition in the California law until I had bought stock in a California corporation. I was dumfounded. It seemed to me that it would not be safe to buy stock in a California corporation, I was told.

The State of California has a blue-sky law and elaborate machinery to prevent fleecing of investors, but now we have a new provision for warning investors that they may be liable for the debts of the corporation.

"The German-American Bank first occupied quarters at 114 1/2 South Main street, but in 1893 moved to another building on the northeast corner of First and Main, in which it operated until 1912, when it moved to its present location at the corner of Seventh and Spring. Dr. Avery was made president of the Union Bank of California in 1906, and in 1917 the institution's name was changed to the Guaranty Trust and Savings Bank. The merger with the Security came in 1921. Dr. Avery became president and manager under the new arrangement. He also became a Security director, as did E. S. Rowley.

Dr. Avery was secretary and cashier.

Born in Washtenaw county, Michigan, Dr. Avery was educated in that state and studied medicine at the University of Michigan. He practiced for a year in Niles, Mich., where his severe duties as a physician and surgeon told on his health. He moved his family to Los Angeles in 1889, having spent a vacation here previously.

After a short time in the city, he accepted a position as a manager of the Rockgas Products Company of Coropala, Pa.,

which he helped to build up to a position of strength in the oil fields of Pennsylvania.

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 6.—Answer has been filed in the United States Court to a suit brought July 22, last, by the Department of Justice, charging a conspiracy of illegal and fraudulent occupation of parts of the Black and Boulder Canyon reservoir sites on the Colorado River. Representing defendants Ralph H. Cameron, Jr., son of Senator R. C. Cameron; M. M. McLean, wife of Senator Cameron; G. H. Stetson, H. B. Stetson, his wife; S. E. Queiroz, T. T. Potter, H. N. Williams, E. E. Hopkins, M. Gillett, H. B. Gillett, Jr., H. H. and H. E. Bedient, the answer carries the names of Attorneys F. R. and Leo A. McNamee of Los Angeles, B. P. Lester of Pasadena and H. L. Partridge of Globe.

The answer made reference to the occupation of fifty-five locations of asserted placer claims, each of 160 acres, extending along the Colorado River for two and one-half miles where the river forms a boundary between Arizona and Nevada, with inclusion of the Boulder Canyon, Calville and Upper Black Canyon dam sites. It was asserted that the defendants had made entry upon lands that had been withdrawn by the Secretary of the Interior, that minerals of commercial worth had not been taken from the lands, and that defendants had sought possession for all the real purpose of utilizing the water and power resources of the river, declared of enormous value, and that the water was to be used and essential for such purposes to the welfare and safety of the plaintiff (the United States of America) and the people of the United States. Cancellation of the filings, therefore, was asked, as well as proceeding in equity.

GENERAL DENIAL

In the answer which denies in general terms about all the material features of the complaint, it is declared that the defendants, acting for themselves or for anyone else, had no intention to obtain possession of the mining claims "for the purpose of utilizing the water, or the storage reservoir, or power dam sites adjacent thereto, upon the lands, or for the purpose of extracting valuable minerals therefrom, and except for the purpose of utilizing the water and power to be developed therefrom for the economic development and extraction of the precious metals in the mining claims of the defendants described in said bill of complaint."

Land was described along the river to the value of \$4200 is declared to have been for the development of the mines and that affidavits with respect to the purpose of such land were forged and the defendants as had been asserted. Denial is made that the plaintiff (the United States) is or was at any time mentioned in the bill of complaint the owner or in the position of entitled to the possession of the placer claims described or any part thereof. It is stated that the mineral contents are of great value and that the defendants, since the date of location, have been and now are "under a claim of right in the open, exclusive, notorious and actual possession of said mining claims and the ground embraced therein."

DAM SITE QUESTION

There also is denied "said group of claims are so located as to embrace within the exterior boundaries thereof any lands between the Boulder Canyon dam site and the upper Black Canyon dam site and Colorado River, and denial "there is in my Boulder Canyon dam site or any upper Black Canyon damsite upon said Colorado River, or at all." The defendants further asserted that the waters of said Colorado River at or near the points to-wit: where the Colorado River flows through the claims of the defendants in the complaint described, because of its volume may be utilized to generate power for commercial and other purposes, and for storage of water for irrigation and other purposes, and for storage of water in floors, control and other such purposes, but that the Colorado River at or near the points to-wit: where the Colorado River flows through the said claims of defendants, because of its precipitous character may be utilized to generate power for commercial purposes, or for any other purpose or purposes and for the storage of water for irrigation purposes and for any other purpose or purposes, but however, but assert the fact to be that the said Colorado River at and near the points last above asserted is not and at all times in said complainant mentioned herein a navigable stream and river, and defendants further asserted that the waters of said Colorado River and the power to be generated therefrom may be used by these defendants in the economic development and the extraction of the precious metals in the mining claims of the defendants."

A similar complaint, but listing a larger number of alleged mining claims, has been filed in the United States Court at Carson City, Nevada.

Newport Beach Water System Bonds Awarded

An issue of \$350,000 Newport Beach domestic water system bonds was yesterday awarded to Freeman, Smith & Company, Vicksburg & Co. and R. R. Company, Inc., a New York holding group of Los Angeles by the Board of Trustees of that city, for par and accrued interest of 5 1/2 per cent. of Freeman, Smith & Company, Company presented the offer after the trustees found no bids had been received in their advertisement of the issue for 5 per cent and six months interest. The 5 1/2 per cent was due to the rise in call money rates, showing a resumption of business activity in all lines, and the need to have the system completed before next summer. It was also believed that a saving would be effected by bids of contractors, competition being keen at this time in this class of construction work.

TREND OF STOCK LIST DOWNWARD

Prices Yield to Pressure of Heavy Selling

Numerous One to Six-Point Losses Scored

High Call Rate Contributors Weakened Market

BY A. P. NIGHT WIRE

NEW YORK, Oct. 6.—Despite aggressive pool operations in several specialties and favorable business news today's stock market was under heavy selling pressure, closing quotations showing numerous declines ranging from 1 to nearly 6 points. Trading was on an enormous scale, today's sales totaling 2,136,400 shares.

Heavy selling in both accounts was incurred by the following stocks: the technical position of many stocks had been weakened by the recent brisk advance and by the maintenance of the call money at 5 1/2 per cent, which has called in additional loans, and the forced liquidation of weakened marginal accounts.

OUTSIDE FACTOR

Outside the stock market, chief interest centered in the announcement of large shipments of gold from England to the United States and the raising of the U.S. dollar by 1/16, divided from \$4 to \$7 annually, which, curiously, was followed by a decline in the stock to 112 5/8, or 2 3/8 points the day after having touched 116, the highest since 1914.

Most of the standard industrial stocks closed a point lower at 121 after having reached 122 3/4. But the market closed 1 1/2 points lower at 19.53 cents. Bradbury, at 5 1/2, and American Can was off 5 1/2 to 22 1/4 after having sold above 23. Mack Trucks broke 6 points to 206, closing slightly above the figure.

Standard stocks also were liquidated freely, the popular explanation for the selling being the announcement that the examiners of the Interstate Commerce Commission had

BAD CHECKS

The following bulletin on bad-check writing was issued yesterday by the forgery department of the Los Angeles Police Department, detective bureau:

Los Angeles merchants are warned regarding the activities of a group of check writers who have been writing checks from various local firms and in this way have victimized many citizens. This gang, known as the "Julie Gang," includes one "Julie" Morris, alias Julie Green, of the Greenfield Auto Wrecking Company and has been operating in Los Angeles for some time. These checks are filled in with a check writer's name, his signature and are forged to be safety forged.

Morris, alias "Tiger," is described as a man, 30 years old, 5 feet 7 inches tall, weight 155 pounds, stocky build, short hair, light complexion, wearing a black suit, white shirt and soft blue serge pants, wearing shoes and soft leather belt.

Rejected the Luree merger plan and the commission's failure to approve the proposed acquisition of the St. Louis Southwestern by the Rock Island.

MOTOR TRIO GAINS

Report of speculative activity carried that stock would nearly 4 points in the morning, receding in excess of 10 points in transaction in excess of 200,000 shares, and the establishment of new highs by General Motors at 113 1/4, and Studebaker at 60 3/4, were the outstanding features in the trading in the motor shares.

Call money ruled unchanged at 5 1/2 per cent. Time money and commercial paper rates held steady.

Foreign exchanges continued to move within rather narrow and irregular limits. Demand sterling rallied slightly higher at 4.83 7/8, despite a slight outflow of gold from the Bank of England.

French francs broke below 4.60c for a net loss of nearly 4 points.

Norwegian kroner ruled about 10 points lower at 19.53 cents.

Braunschweig fell 1 1/2c to a new high record for the year in anticipation of new financing.

Market Averages:

Tuesday, Oct. 6, 1925. Total stock sales, 2,136,400 share.

UP TURN IN COTTON IS REPEATED

Fractional Scored Again on Rally Due to Selling for Profits by Shorts

(EXCLUSIVE DISPATCH)

NEW YORK, Oct. 6.—There was another moderate rally in the cotton market today. It was mostly due to the profit-taking by shorts here and at Liverpool, as the market had the appearance the last several days of having been well liquidated and was oversold for general conditions.

Prices started about 5 to 8 points higher and gradually worked up to an advance of about 15 points over yesterday's closing. October again gained 1½ cents, December 2½ cents; March 2½ to 3 cents and May 20. After this covering demand ran out with the end of the noon hour, the market relapsed into a condition of dullness, with prices giving off a little in the later trading on some scattered further local selling and some fresh southern hedge selling.

The cotton wave moving down from the Northwest had with it temperatures which recently have been dropping between 25 and 30 degrees above zero over Montana, Wyoming, the two Dakotas and Nebraska, will continue the downward trend of the cotton market tonight and tomorrow, causing much lower temperatures there. It is not believed, however, they will drop to the frost stage for North Dakota or Oklahoma at this time, although there is a frost weather today just above that association in Western Kansas. There were some further undesired rains in Tennessee and the Memphis district over night, but the amount of rain when sudden cold waves are to be expected for the northern part of the field. The average date of killing frost, however, is late in October.

Linen futures, after a long decline, turned strong, rallying about 10 on Friday, closed steady at 8 to 10 points above yesterday's closing, the decline of 5 to 8 points should have met our closing of yesterday. Today's port receipts were \$6,000 bales against 12,000 last week and 17,000 last year. Export figures for October were 27,000, up 1,000 from August 1 to date, against 1,125,000 the same time last year. The average of about ten private crop reports in forecasting the coming growth of cotton for 1926, on Friday, is about 14,250,000 bales against an average of 12,800,000 the same reports a fortnight ago.

FUND PLEDGES TO BE SPEEDED

Requests Sent to Mail in Quake Contributions

Committee Considers Fixing of Closing Date

Santa Barbara Official to Tell of Progress

Requests to send in their contributions at the earliest possible moment were mailed to all persons who have made pledges to the Santa Barbara emergency relief fund by Campaign Manager Morris yesterday.

"We still have pledges to the fund outstanding to the amount of about \$12,000," said Mr. Morris. "The county committee is now considering the advisability of fixing an early date for closing the campaign and this makes it imperative to collect all pledges as soon as possible."

"One policy consistently followed throughout in this campaign has been not to include the pledges in our daily reports of receipts. The total of \$165,213 raised in Los Angeles up to this time represents actual money that has been received and forwarded to Santa Barbara."

Preparatory to stimulating interest in the fund during the closing days of the campaign, E. F. MacDonough, secretary of the Chamber of Commerce of Santa Barbara, and his wife, Mrs. MacDonough, chairman of the campaign committee in that city, will arrive in Los Angeles today to confer with the campaign leaders here. Mr. MacDonough, who has recently returned from a similar mission in the northern part of the State, will furnish a detailed statement of conditions in Santa Barbara at this time and the progress made in the campaign and the progress of his information on the local leaders will decide on what course to follow from now on until the closing of the campaign.

On the distribution, amounting to \$60, was received at campaign headquarters at the Chamber of Commerce yesterday. This came from the employees of Young & Alldredge, the oil concern, and brings the total of the printing trades division up to \$125.

SECTION OF STREET ZONED FOR BUSINESS

The section of Venice Boulevard from Arlington street to Seventh avenue yesterday was zoned by the City Council for business buildings, as recommended by the City Planning Commission. Property owners from Seventh avenue to Crenshaw Boulevard asked that this section be included in the business zone, but the request was denied, and nor was any action taken to zone Venice Boulevard for business from Western avenue to Arlington street.

SOCIETY COLORS OPERA PREMIERE

(Continued from First Page) over silver and a rose-colored Spanish shawl wrap.

Mrs. James Rickard of Santa Barbara wore a gown of soft colors with fur-trimmed wrap.

Mrs. B. Platt wore a white frock of satin with wrap of beige arm.

Mrs. Gloria Mayne was in red georgette with wrap of white ermine.

Mrs. Edward J. Cooke wore a gown of white beaded georgette and seal-skin coat.

Mrs. Constance Cooke was in blue georgette and a Spanish shawl wrap.

Mrs. Charles Modini-Wood was in blue and gold brocade with wrap of velvet with appliqued flowers.

Mrs. Elizabeth Wood-Stack wore lavender and silver with white velvet wrap embossed in black.

Mrs. Mme. Wood wore gold net with appliqued red flowers and a red Spanish shawl wrap.

Mrs. Kemper Campbell wore black chiffon with trimmings of cut silk and heavily embroidered black silk crepe wrap.

Mrs. George J. Major wore an embroidered Chinese silk crepe gown with wrap of black velvet with silver and old rose brocade.

Mrs. Henriette Lave of Santa Barbara wore orchid and silver lame brocade gown with wrap of orchid velvet and sable collar.

Mrs. William Booth Gayton wore a gown of rust colored crepe heavily embroidered cut steel beads, the cape of geometric or sun shades embroidered in cut steel beads and she carried an immense ostrich feather fan.

Mrs. William E. Mabey wore a gown of gold lace with brown velvet opera cape.

Mrs. William Reed wore a gown of cloth of gold with fur-trimmed wrap.

Mrs. Charles H. Dick wore a gown of black velvet with wrap of pink velvet trimmed in fur.

Mrs. William F. Chamberlain was in a satin lace patterned model of grey and crystals with wrap of cloth of gold brocade over pounds blue velvet with bands of fur.

Mrs. Robert London wore black and blue sequins over chiffon, her wrap was a silver lace velvet and trimmed with black fur.

Mrs. Hansen Moon wore flesh colored chiffon with white wrap trimmed in white fur.

"TOSCA" NEXT; FETE SCHIPA

COLORFUL OPERA TO BE GIVEN TONIGHT

"La Tosca" is an opera in three acts by Giacomo Puccini. In the church of Saint Andrews, Angelotti, an escaped political offender, seeks refuge. A sacristan enters, followed by Cavardossi, who proceeds to put the finishing touches on his painting of the Magdalene. Tosca arrives unexpectedly and professing to see in the likeness of the portrait of her lover, claims him as her lover. After her departure Cavardossi helps Angelotti plot his escape, but the sound of a cannon shot discloses that his escape has been discovered. Tosca returns from the church rush in, headed by the sacristan. Suddenly there is a silence; Scarpia stands there with Spoltore and his agents. During the search Scarpia finds the pallbearers emptied of food and wine. He also finds a fan of the Marchesa and Tosca, jealous, dashes it in anger. Scarpia follows her and avows his love.

In the next room the Farnese palace, Scarpia awaits Tosca's arrival for supper. Spoltore enters with Mario, Angelotti having eluded him. Mario is questioned with regard to his secret and Spoltore reveals his secret. Scarpia describes to Tosca in detail her lover's anguish until, utterly prostrated, she divulges Angelotti's hiding place. Mario denounces Tosca for her betrayal. Spoltore, in a fit of rage, dashes the victory of Bonaparte over Scarpia's forces. Scarpia demands Tosca's virtue as the price of her lover's freedom and she finally agrees to yield. Scarpia makes a mock execution of Mario; is persuaded to give Tosca safe conduct for herself and Mario to leave the country. They then start for the castle of Angelico. Mario, awaiting execution at last, writes Tosca a farewell letter. She enters with a safe-conduct, exclaims in alarm, has a shock assassination. It is late, however, and Tosca, not knowing this, triumphs over Scarpia with his marvelous acting. As she realizes the truth, Spoltore emerges with a sword. Mario dashes the sword through the shrubs at his back, and leaping from the castle parapet, is dashed to pieces.

in gold tissue with becoming wrap of blue petticoat velvet trimmed in fur.

Mrs. Martin Erickson wore a gown of silk cloth, her wrap being an exquisite tan African Burnoose cape.

Mrs. Chandler Kellogg was in black and red with sealskin wrap.

Mrs. Phillip Zobella wore a gown of American Beauty chiffon with gold lace, wrap trimmed in brown fur.

Mrs. Hector Geiger was in white brocade trimmed in crystals with wrap of gold and taupe, metal brocade.

Mrs. Antonietta De Mauria wore a black lace gown with black velvet.

Mrs. Walter Jarvis Barlow wore a gown of blue and gold with Spanish shawl wrap.

Mrs. Elsa Brooks Barlow wore a gown of pink and blue and a silver cloth wrap.

Mrs. William H. Van Dyke wore a rose-headed net gown with wrap of purple velvet.

Mrs. Marshall Stockey Anderson was in an imported pants velvet gown with trimmings of mink and a silver wrap.

Mrs. Kemper Campbell wore a white marquisette gown and a silver brocade and Egyptian jewels. Her wrap was in brocade trimmed in sables.

Mrs. Kemper Campbell wore black chiffon with trimmings of cut silk and heavily embroidered black silk crepe wrap.

Mrs. George J. Major wore an embroidered Chinese silk crepe gown with wrap of black velvet with silver and old rose brocade.

Mrs. Henriette Lave of Santa Barbara wore orchid and silver lame brocade gown with wrap of orchid velvet and sable collar.

Mrs. William Booth Gayton wore a gown of rust colored crepe heavily embroidered cut steel beads, the cape of geometric or sun shades embroidered in cut steel beads and she carried an immense ostrich feather fan.

Mrs. William E. Mabey wore a gown of gold lace with brown velvet opera cape.

Mrs. William Reed wore a gown of cloth of gold with fur-trimmed wrap.

Mrs. Charles H. Dick wore a gown of black velvet with wrap of pink velvet trimmed in fur.

Mrs. William F. Chamberlain was in a satin lace patterned model of grey and crystals with wrap of cloth of gold brocade over pounds blue velvet with bands of fur.

Mrs. Robert London wore black and blue sequins over chiffon, her wrap was a silver lace velvet and trimmed with black fur.

Mrs. Hansen Moon wore flesh colored chiffon with white wrap trimmed in white fur.

FINDS DESIRES FULFILLED HERE

ARTISTS' CLUB TO HAVE DINNER FOR SINGER

The Italian section of the International Artists' Club will conduct a special meeting, reception and dinner tonight in the Gamut Club to honor Tito Schipa, lyric tenor of the Chicago Opera Company, who appeared last night in "Manon" at the new Olympic Auditorium in the initial performance of the California Grand Opera Company.

A young tenor will be presented with a loving cup by Enrico Piano, Italian Consul, in recognition of his achievements as an opera singer and concert singer.

A program given by Italian artists will be followed by dinner, the festivities concluding in time to attend "La Tosca" in the Olympic Auditorium, in which Claudia Muzio will sing the title role.

Tito Schipa will be presented with a loving cup by Enrico Piano, Italian Consul, in recognition of his achievements as an opera singer and concert singer.

Talk Series Play Will be
Broadcast Today

BY PAUL SHEEHY
In new studio last night ex-
pected to receive welcome to a
new sponsor of stellar programs
from KHJ when the Coast and the
local advertising companies made
their debut over the air with a
special program, presenting eight
of the prominent stars of the sta-
tions in a short, concert filled
with musical selections.

and eight's musicals and enter-
tained the first of a series to be
presented by the two companies
in their new endeavor.

With the arrival of the artists the
show was opened with a duet by
Uncle and Cousin Oswald, who
have been a favorite on the radio
for many years. The show con-
tinued with a variety of solo
performances, including a solo
by Dr. Mars Baumgardner, lecturer
and screen juvenile.

LOS ANGELES (Loco Ahng-hay-ahs)

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is the news service to which
The Times refers for reproduction of all news credited to it
or not otherwise credited in this paper and not
published here without permission.

The Times aims at all times to be accurate in
every published statement of fact. Readers who
discover any error or omission in any article
will confer a favor by calling attention of the Edi-
torial Department to the error.

WHY COOL?
You often hear folks speak of a cool
million. But usually it takes a lot of warm
work to get one.

NOT SO SIMPLE
Of course, our men cannot live by
bread alone. If they don't get pie for des-
sert their rays may be heard for miles.

SCRAMBLING EGGS
Restaurants, as a rule, no longer serve
wines of rare old vintage. But quite a lot
of them continue to serve that kind of eggs.

HOW ABOUT VAMPS?
Convicts in Fort Leavenworth penitentiary are to be kept busy making shoes. It
is to be hoped the shoes will come through
that association with fine, strong, reliable,
uncontaminated soles.

NOT SO DRY
President von Hindenburg of Germany
received eighteen kegs of beer and a dozen
cases of wine among the gifts extended him
on his 78th birthday. It might be mentioned
that a pleasant time was had by all.
The singing must have been massive.

AS OTHERS SEE US
They say that the men of Mars are
equipped with X-ray telescopes of such high
power that they can scan the features and
even note the wrinkles on the brows of our
humans. As they study our Hollywood ac-
tors registering their emotions they must
conceive that our poor old world is in a
very bad way.

A SAILOR'S RIGHTS
A sailor from the battle fleet was ar-
rested Saturday night under a flirtation
charge. He was trying to claim the atten-
tion of a couple of our fair ones. Now
some of the young salts aver that if they
are to be pinched for smiling at our maidens
they will mark our harbor off their visiting
list. There are few nonstopovers middles
on the briny. If they may not shine up to
our Angeles they may take their business to
San Diego.

KNOCKING A GODDESS
One of the Klan newspaper organs has
urged that the Statue of Liberty in New
York Harbor be torn down. The intimation
is that we already have too much liberty
in this country, but the argument is made
that the massive lady has a pagan face.
She looks like a Greek goddess and it seems
that Greek goddesses are not wanted in this
country. At any rate, they are not to be
used to advertise our especial brand of
national freedom. The Klan is passive as a
constructive force, but its destructive pow-
ers are at all times ready for action.

THE GRACIOUS RAIN
With a gentle and refreshing rain
Southern California's wet season begins a
month earlier than last year, the precipita-
tion being only .14 of an inch short of the
full October average for the last half cen-
tury.

The official weather report describes the
moisture that fell between the noon hours of
October 4 and 5 as the first storm of the
1925-1926 wet season. Yet the rain soaked
up by the thirsty soil in and around Los
Angeles at no time reached storm propor-
tion. From Sunday afternoon to Monday
morning the floodgates of the heavens were
open merely wide enough to permit a
steady and gentle downpour.

When the soil is dry and loose after the
long summer solstice, should the first rain
come in the nature of a storm, it is liable
to do more harm than good, to wash out
instead of washing in. Our first rain this
season has come as a gracious harbinger to
prepare the way for the heavier downpours
that will follow as the months of normal
weather roll around again.

While the total moisture reached an ap-
preciable figure—almost a record for the
first week in October—the manner of it was
gracious, the approach friendly and the
promise in every way encouraging. The
earth drank as much of the life-giving fluid
as it could assimilate after its long ab-
sence. It is now in good fettle to receive
the copious draughts which—according to
squirrels and gophers, to prophets and pro-
gnosticators—will visit California through
the next six months.

What little harm ensued to a few late
crops at our wet season's inauguration was
negligible in comparison to the great good
that befell our Southwest as a whole at the
long dry season's demise. Some superstitious
souls may foresee freak weather ahead
of us because this October rain broke all
precedents by coming up from Mexico instead
of down from the northern mountains or in
from the western sea; by being heavy
rain where rainstorms are usually lightest,
skipping the mountains and hitting the valleys;
by giving Los Angeles a heavier precipita-
tion than the top of Mount Wilson.

But Southern California today stands
thankfully in the presence of the Giver of
all blessings and rejoices as did David of
old, singing gratefully, "Thou didst send a
plentiful rain, whereby thou didst confirm
thine inheritance when it was weary."

THE DIFFERENCE
Deplored the laggard development of
Arizona as contrasted with the tremendous
growth and expansion in Southern Califor-
nia, the Prescott Evening Courier, one of
the influential newspapers of Arizona, con-
cludes, editorially, that an explanation is
found in the existence here and in the non-
existence in Arizona of "confidence and cap-
ital."

The Courier, with some degree of logic,
attributes much to Henry E. Huntington
and to John B. Miller in its summary of
reasons for Southern California's great
strides in wealth and in population, crediting
these two men alone with responsibility
for the investment of more than \$250,000,-
000 of eastern capital in the electric trans-
portation and electric power enterprises in
which Huntington and Miller are interested.

The disparity in the growth of Southern
California and Arizona is emphasized, the
Courier asserts, by the fact that the relative
potentials of Arizona and Southern
California should have placed Arizona in a
favorable position. Whether the Prescott
public is right or wrong in its com-
parison of the natural resources of the two
regions, it furnishes a partial answer, but
no more than a partial answer, to the question
of relative growth; for, while "confi-
dence and capital" are essentials, there
must be conditions favorable to each before
either become available.

Confidence is not an artificial condition,
nor is it engendered by mere material
things; capital follows confidence only when
the reasons for confidence are sound. If
Southern California has inspired confidence
and, hence, acquired the capital necessary
to its development, there are easily discov-
ered reasons for the faith it has created.

Development in Arizona has been re-
tarded for lack of confidence and capital,
the reason thereof is not to be ascribed to
care or inattention.

Aside from the original or the ultimate
possibilities of the two localities, it seems to
The Times that Southern California has
prospered not only because of its natural
resources, not only because of the far-sighted-
ness and financial genius of many of its
citizens, but because of the disposition of
its citizenship and of its government and
laws to invite, encourage and sustain legiti-
mate enterprise and industry.

In Arizona, unfortunately, the contrary
has been true to a large extent. With the
exception of a comparatively brief period,
that State, since its admission to the Union,
has been in the grip of an uninterested politi-
cal machine headed by the eccentric and
politically irresponsible demagogue, George
W. P. Hunt, Governor.

Gov. Hunt believes in Gov. Hunt, works
for Gov. Hunt and on any and all occasions
applauds the purposes, abilities and accom-
plishments of Gov. Hunt. His regime has
been marked by consistent and unremitting
efforts to build up and maintain his own
political organization, which has never hesi-
tated to attack and harass other private
individuals or business enterprises in con-
flict with the Hunt clique.

The consequent conditions of govern-
mental whimsicality and instability, economic
uncertainties and legislative absurdities
have not been calculated to induce an ex-
tensive investment of capital in new enter-
prises nor have these conditions reacted
beneficially upon established industrial and
business institutions.

Arizona's rich lands and great mineral
wealth eventually will have sufficient cap-
ital for their full development, but not until
confidence has been established through the
introduction of a State administration cap-
able of understanding the basic relation-
ship between good business and good gover-
nment.

Southern California itself might still be
empty and unexplored if this fertile, thriv-
ing land had had the blighting hand of a
Hunt to guide its destinies.

REPUDIATED PROMISES
If diplomats have learned one thing
more than another as a result of the war
doubtless it is that slogans are dangerous.

They often have a boomerang effect little
anticipated in advance. Perhaps the most
notorious instance of a slogan gone wild is
the famous "self-determination" pronounce-
ment. During war time, when immediate
results, irrespective of the methods em-
ployed, were of primary importance, this
slogan was used with much success. While
the promises very often had no thought
beyond the exigencies of the moment, the
promised, unfortunately, more generally ac-
cepted the term at its face value. And
much of the world's misery during the past
six years can be traced directly to hopes
thus falsely raised.

A little-known case, but one which holds
great potentialities for future mischief, is
the repudiated promise of independence
given to the Palestinian Arabs.

In 1918 the British High Commissioner for Egypt, Sir
Henry MacMahon, acting under instructions
from the British Foreign Office, assured
Hussein, Sharif of Mecca, that, in the event of
an Arab revolt against the Turks, an inde-
pendent Arab state should be set up after
the war.

The Arabs revolted and in due
course achieved their independence—all but
those of Palestine; in the interim other
plans had been made for that historic land.

The Jews, for centuries a race without
a country, had long hoped to establish in
Palestine a national home. To this end the
Zionist organization, an international associa-
tion composed of wealthy and influential
Jews, had been formed. And it was due
to the activities of this organization that
Palestine was excluded from the Arab state.

The Zionists and the British government
worked in close harmony from the start;
and in November, 1917, Lord Balfour made
his now famous announcement that Pal-
estine should become the Jewish national
home. In furtherance of this plan the coun-
try was later placed under a British man-
date by the League of Nations.

If our general executives were not com-
pelled to look after their political fences
quite so regularly they might have a little
time at least to do a little governing be-
tween sessions and handshakes.

And then there is a suspicion that the
youth of today might revel in a vacation
from the old-timers who are constantly view-
ing with alarm the "goings on" of this age.

There is hardly space to suggest that the
editor might be pleased to be left alone to
run the paper according to his—but what's
the use!

PENAL PROGRESS

The Chief Magistrate of the courts of
New York City expresses regret that the
people of America do not have as much respect
for and confidence in their police op-
eratives as their people have in England,
France and other Old World countries. This
has its effect in the administration of justice.
In London or Paris the fate of the
prisoner on trial largely hangs upon the
word of the policeman who made the arrest.
The Judge shows the officer every courtesy
and respect and treats him as the fearless
man he is made to be.

Judge McAdoo cites the further fact that
the crime is not only increasing, but that the
number of convictions is growing propor-
tionately less. For instance, in 1918 there
were 240 murders in New York, with only
twenty-eight actual convictions in court.
This is a black enough showing, but last
year there were 334 murders and only
twenty-seven convictions—in other words,
there were nearly 100 more killings with
one less conviction. Our cumbersome laws
and prolixious court practice work mainly
on behalf of the criminal.

Every day in the year, like water running
through a sieve, a regular army of profes-

LETTERS TO

The Times

Paid in Full

LOS ANGELES, Oct. 1.—[To the
Editor of The Times:] I have re-
cently read of a woman, once heiress
to millions, dying in abject poverty
in Chicago, supposedly the victim
of suicidal intent. She had been estranged
from her parents and relatives years ago and had
drifted down the sunless path to poverty and despair.

These facts were not what impressed me so deeply as did the statement published in the newspapers that her sister and her mother both refused to assist in giving the unfortunate woman a decent burial. She was cared for in death by her friends. Her sister is quoted as saying: "I have never approved of my sister's life. I can see no reason why she should be any more to me than any other dead woman in Chicago. Why should I, who have pride and quiet, claim her in this kind of death?"

It is inconceivable that any woman of education and refinement could speak thus of a sister, no matter what the offense of that sister may have been. Death should wipe out all resentment and hatred. Lips that are silent can utter no defense. We who remain should have the generosity and the humanity to draw the veil of forgiveness and forgiveness over the past of those whose sins may have seemed like scarlet. It is to be hoped that she has been misquoted. Her refutation of the newspaper statement would be good reading.

B. W. BLANCHARD.

"Education and Prohibition"

LOS ANGELES, Oct. 4.—[To the
Editor of The Times:] In your issue of September 20, appears an article upon "Education and Prohibition," by F. C. Finkle. It represents the attitude of some good but mistaken people, because of a lack of careful study of political philosophy. Possibly the following quotation from Abraham Lincoln as it appears in the "American Mind in Action," page 70, may help some conscientious but puzzled persons:

"For all we know to the contrary, he is
said to be innocent. Such questions
must first find lodgment with the
most enlightened souls who stamp
them with their approval. In God's own
time they will be organized into law and thus woven into the fabric of our institutions."

I feel very sure that any thoughtful
person, familiar with the history of the liquor traffic in the
United States, will see that the statement of Abraham Lincoln has been literally followed in the process of reaching national prohibition.

One of the things which most
people overlook is that the purpose
of law is not to protect individuals,
but to protect society in its inalienable
rights. Certainly, we have come to
"God's own time" on the subject of
prohibition of the liquor traffic.

REV. F. M. LARKIN,

Secretary State Church Federation.

"THE WHARFIRE"

BY THE CHURCH EDITOR

A delegation of colored brethren,
deacons of an old southern church, called upon Parson Brown
with a request for his resignation.

"What do you all want to put
me out of church?" asked the par-
son. "Don't I sound good?"

"Yes, parson, you sounds," re-
plied the spokesman of the dele-
gates.

Just About It

By James J. Montague

AHEAD OF HIS TIME

The London curio concerns

We're satisfied that they had blundered,
By stocking up on Grecian urns

About the year of eighteen hundred.

Though daily they displayed the wares

In which so much they had invested,

It got but casual, passing stares—

The public wasn't interested.

Then Keats inscribed his well-known odes,

In which, in rare poetic phrases

Which people quoted, he bestowed

On Grecian urns unstinted praises.

And straightway they became a fad,

And throughout merry England's borders,

The dealers sold out all they

To
the

You can double the value of your smile

This NEW Way Gives "Off-Color" Teeth Dazzling Whiteness Quickly and Gums a Healthy Coral Tint to Contrast Them

...Accept 10-day tube to try. See what happens as film coats go from your teeth

Don't permit off-color teeth to mar your smile. Study how people, men or women, laugh and smile. The frequent smile, the clear teeth play.

The old-time methods fail in successfully combating it. That's why, regardless of the care you take now, your teeth remain dull and unattractive—your gums soft and toneless.

Tooth troubles and gum troubles now are largely traced to that film.

Old-time methods fail in successfully combating it. That's why, regardless of the care you take now, your teeth remain dull and unattractive—your gums soft and toneless.

Simply a film covers your teeth across your smile, and you will feel a film, a film that covers them.

A film is an enemy to your teeth, gets into your gums. You weary ones.

LUXOR Window Shades

The Completing Touch

Color, like Music, has much to do with human happiness. Color in the home plays a large part in influencing our lives. Through the wonderful eyes of the home you can achieve distinctive and different decorative effects. The window shades are the controlling factor in the final color result. They make the color scheme. They are the completing touch.

LUXOR shades are colorful and durable. Come to the department or we will come to your home with samples. Phone Broadway 7300.

Use Colgate's
It removes causes of tooth decay

Preserve the youthful charm of your smile by sensible care of your teeth. Don't wait until tooth decay sets in. Preventive dentistry is the new note in advanced dental practice. Colgate's Ribbon Dental Cream has always been in the forefront of this scientific move. Colgate's is a preventive dental cream, pleasant to use, and thoroughly effective. It removes causes of tooth decay.

Colgate's contains no harsh grit—no dangerous ingredients. It "washes" your teeth gently and safely. In principal ingredients are fine chalk and mild soap, the two substances recommended by eminent dental authorities. Large tube 25c.

SOCIETY

BY JUANA NEAL LEVY

One of the prettily appointed teas of recent date was that with which Mrs. Robert Langley (Frances Wagner,) one of the brides of the year, entertained Tuesday in the Solarium of The Gaylord. Where Dr. and Mrs. Langley have their home, since their return from their wedding trip north. The decorations were attractively carried out with a profusion of deep red, gold and huge saffron yellow chrysanthemums, while each table held a crystal case filled with red sweet peas and baby chrysanthemums. Those who attended the bride's tea featured the afternoon's entertainment were: Mr. Donald Thorley Robbins, Mrs. Phillip Murray, Mrs. Raymond Huntsberger, Mrs. Howard P. Johnson, Mrs. Charles Becker Jr., Mrs. August von Rosendahl, Mrs. Allan Farrelle, Mrs. Hugh Sutherland, Mrs. Ralph Starkweather, Mrs. Loren Babcock, Mrs. Charles Hilliard, Mrs. Jefferson, Mrs. Richard Mabel, Mrs. Harry Olds, Mrs. Frederick H. Forces, Mrs. Paul B. Fletcher, Mrs. William H. Wagner, Miss Ann

Eagen, Miss Mildred Cooper, Miss Ruth A. Cannon, Miss Florence Muller, Miss Gladys Weatherby, Miss Elizabeth Ward, Miss Charlotte Wintrode, Miss Neola Meek, Miss Dorothy Cooke, Miss Grace Standing and Miss Marie Collison.

Invitations Issued
Cards are being issued by Mr. and Mrs. John Campbell Bullock for a reception which will follow the wedding ceremony of their daughter, Miss Ruth Louise Wallace, and Alfred Dewey Davy on Thursday evening, Oct. 18th. The reception will take place in the beautiful new home of the Bullocks at 627 South Plymouth Boulevard. After dinner I, next, Mr. Davy and his bride will be at home at 1886 Le Chair Place.

For Bride-Elect
One of the most popular brides-elect of the season is Miss Virginia Lee, attractive wife of Mrs. Charles Van Loan, whose marriage to Edmund Clark Luster will be one of the events of the 23rd inst. in St. John's Church.

Following Miss Van Loan a bride was and handkerchief shower given by Miss Ruth Duryea at her home in Rampart Boulevard. Sat-

urday afternoon. Those included were Miss Florence Andrews, Miss Margaret Barnard, Miss Jane Farish, Miss Harriet Ford, Miss Carolyn brother, Mrs. Jack Pearson, Marjorie Simmonds, Miss Dorothy Taft, Miss Vivian Thomas, Miss Jewel Usher, Miss Van Loan and the hostess, who was assisted by her mother and Mrs. Van Loan.

Church Ceremony
Honoring Miss Rita Calahan, daughter of Mr. and Mrs. John Campbell Bullock, Saturday morning, October 24, last, in St. Columbkille's Church, South Main at Sixty-fourth street, Rev. Father Patrick Nunan officiating at the ceremony and the bride's maid which followed. Mr. Calahan gave his daughter in marriage. She was a becoming frock of white cotton with a sprig sash and trimmings of lace. The also of orange blossoms and lilies of the valley and she carried an armful of bride roses and valley lilies. Miss Nellie Norris and Fred Calahan, maid of honor while the bridesmaids were Miss Rose Callahan and Miss Mabel Norris, who wore frocks fashioned alike of orchid georgette crepe, trimmed with lace and dotted bouquets of coral-colored roses.

Little Dorothy Grace was the flower girl and Joseph Nesler carried the ring. Thomas J. White served Mr. Schneider as best man and the usher was Dennis Morris and Fred Calahan. A reception and wedding luncheon followed the ceremony, the decoration being carried out with autumn leaves. The bride and Mr. Schneider is the son of Mr. and Mrs. G. P. Schneider and with his bride is motorizing through the States. After their return they will make their home here.

Retirement Home

Capt. Thomas T. Craven, U.S.N. and Mrs. Craven, who have been visiting at the home of Mr. and Mrs. Dean Mason in Lafayette Park Place, have returned to their apartment in the Imperial Beach. Capt. Craven, who is in command of the battleship Maryland, will entertain aboard his ship Thursday afternoon from 3 to 5 o'clock in compliment to his officers and their wives.

Visiting Here

Mrs. George A. Palmer of Detroit Mich., who is touring the Coast, is a guest at the home of her son, Capt. George Palmer, 10th Avenue 66. Mrs. Palmer is a delegate to the national board of manager meeting of the Woman's Home Missionary Society.

The first woman ever to attempt the English Channel swim was Annette Kellerman, who made the first effort twenty years ago.

For Bride-Elect

A reception honoring Miss Gladys Usselle, fiancee of Emil Arthur Edlund of Reno, Nev., was given Friday evening at the home of Mr. Wiley B. Tussing, in Arroyo Drive, Pasadena, the affair taking place after a rehearsal at the church in South Pasadena. Pink and white decorations on the tables and about the room were carried out in flowers and tall candelabra holding pink roses. Mrs. Harold Schmid, gave a musical program. Those included were Mrs. O. K. Usselle, Miss Anna May Price, Miss Lorraine Hendry, Miss Marion Rosen, and Mrs. James Hean, James Scarborough, Onestus Usselle, Jr., and Harold Usselle, brothers of the bride-elect, and Laurence Cook.

The Nights were Torment

Now, thanks to Tanlac, Mrs. Bradley "really and truly" feels like a brand new woman!

Mrs. M. J. Bradley had come to the point where she could scarcely do her housework. Two years of suffering from indigestion had shattered her health. What little she ate caused stomach fermentation, gas bloating and pain. She lay awake through the long hours of the night and was tired out through the day.

"That four bottles of Tanlac should correct my troubles when all other attempts had failed makes it seem altogether wonderful to me. Now I enjoy a fine appetite, good digestion and really and truly feel like a new woman. It is the ideal tonic."

* * *

You don't have to wait long to see the results from Tanlac. That's the wonderful thing about this great tonic. It works fast.

Like a flash it goes to the seat of trouble. It cleans the blood and drives out the poisons that are tearing down your health. It tones up the stomach and aids digestion—gives you a real appetite for wholesome food.

Don't drag on from day to day putting off the time of reckoning. Start taking Tanlac this very day. Your druggist can supply you.

Note: For Constipation, take Tanlac Vegetable Pills, Nature's own harmless laxative.

Prisoner Returned Before Angelenos Freed

After spending a night in jail in Tia Juana, charged with kidnapping a Mexican citizen and spiriting him across the line, Deputy Sheriff Archie Hoffman and A. P. Mendoza were released yesterday by order of Gov. Rodriguez of Lower California, at the request of Sheriff Traeger. The deputies were freed after the Mexican, said to be named Medina, had been released from jail in San Diego and had been returned to Mexico. The suspect is wanted in connection with an asserted kidnapping.

Deputy Hoffman and Mendoza arrived in Tia Juana Sunday, looking for Frank Torres, former employee of the county health department, charged with padding a payroll, and Domingo and Josefa Mora, 15 and 16 years old, respectively, missing from their home in San Fernando since August 22, last.

In scouting around in the Mexican resort, the officers found Medina, it is said, and arrested him without obtaining a requisition papers. They then took him across the line and lodged him in the San Diego County Jail, it is asserted. Word of the kidnapping reached Mexican authorities, who were waiting for the deputies when they went back to Tia Juana Monday, looking for a woman, said to be an accomplice of Medina. A San Diego deputy, whose name was not learned, was said to have been taken also.

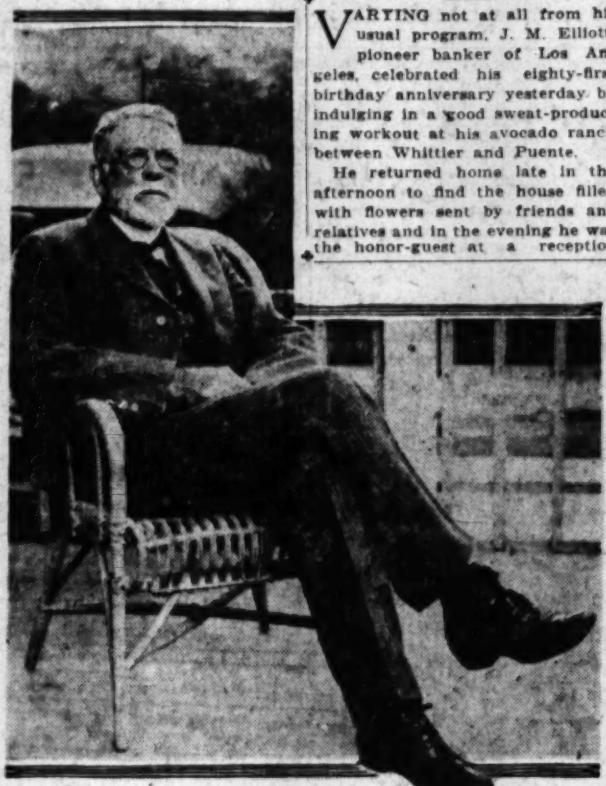

The plight of Hoffman and Mendoza became known here and Sheriff Traeger and Deputies C. A. Patton and Modie rushed to the border city to negotiate their release.

COUNCIL AUTHORIZES TRAFFIC SIGNAL FUND

The City Council yesterday authorized the appropriation of \$119,476 for the new automatic traffic signals now being installed at 60 important traffic intersections throughout the city. The money is provided from fines collected in the police courts for violation of the traffic laws.

WILL BOOST DEPOSITS OF BANKS HERE

Venice Annexation Will Add \$1,000,000 to Total of Los Angeles

Deposits of the banks of Los Angeles will be increased more than \$1,000,000 with the annexation of Venice to the city. It was revealed yesterday in checking the financial condition of the First National Bank of Venice and the Venice branch of the Bank of Italy, the two banks operated independently of Los Angeles banks.

Total deposits of the two Venice banks as of September 28, the date of the recent call, amounted to \$1,041,452.71. Total loans and investments were \$556,503.95, and available cash \$164,221.50.

The First National Bank of Venice will become the thirteenth national bank in the City of Angels and is the largest of the two. Venice banks from point of deposits, loans and investments and available cash. Total deposits as of September 28, last, were \$556,600, loans and investments \$441,754, and available cash \$128,584.

The Venice branch of the Bank of Italy is a branch of the head office in San Francisco. Total deposits of this bank on September 28, last, were \$848,882.71, loans and discounts \$143,719.95, and available cash \$22,156.56.

There are other banks in Venice, but they are either branch banks or branch offices of State and national banks of this city, and their financial statements are already included in the report of the head of the city.

The financial condition of the State bank of Los Angeles as of September 28, last, will be published tomorrow.

First Husband Doesn't Have to Help Successor

No husband is bound to contribute to the support of his successor, Judge Summerfield declared yesterday.

Heeding the complaint of Mrs. Beatrice Hovestadt Fray that Otto Hovestadt was in arrears several hundred dollars on an order for the support of their child, grandchild, he dismissed the case.

Judge Fray is gone and married a ham actor and my money goes to support him," protested Hovestadt. "I'm glad to support my child, but I've been hanged again to support an amateur actor."

You have to support your child whether you are willing to or not, but of course you are under no obligation to support your successor. I will reduce the payments from \$15 to \$10 a week," Judge Summerfield replied.

Officers in Dry Raid Find Loaded Gun Beside Door

Double Your Pace and You Quadruple Your Power, Speaker Tells Advertising Club

Apotheosing the "fast age" criticized by many moralists, and declaring that the laws of physics apply to mental, moral and spiritual life, Howard W. Dickson of New York, addressing the Advertising Club at the Biltmore Hotel yesterday, told his hearers that speed is the key to success in every field of commerce.

"In all business, including advertising, as in the realm of mechanics, power increases with the square of the velocity," said Dickson. "Double your speed and you quadruple your power; treble your speed and your unit force is multiplied by nine. This fact is based on universal law, the application of which is the key to the success of all notable advertising campaigns."

CHILD OF IGNORANCE

"Fear is the cause of nearly all failure and fear is fated by ignorance," continued the speaker. "Whatever business you are in, start where you are in a run and pay no attention to 'stop signs.' Never let fear stop you. Life is a series of things in motion and motion manifests itself as life. Use your force—and double it."

No great moral reform ever swept the country without the application of this great principle of increasing the power by multiplying the speed of the force," said

Deacon Calvin Coolidge's career. A few words from him during the Boston police strike made him front-page news. Yesterday he said a few more words that proved him justified in what he had said before.

KEPT GOING

"He kept going up until he became Governor of Massachusetts—and there he naturally should have stopped, for no Governor of Massachusetts, that supposedly intellectual, hide-bound aristocracy in the northeastern part of America, has the right to command attention. However, advertising, in the form of legitimate news publicity, placed him in the White House, and a lot of us are mighty glad of it."

A musical program was furnished by Joe Fong, Chinese singer, and the Patrik Brothers, instrumental musicians. Don Thomas, secretary of the club, announced that the speaker next year will be Hon. A. E. Arnstein, who will speak on "Direct Mail—a Vital Medium."

SPEED HELD SUCCESS KEY

"The speed of light is the limit of speed," said the speaker. "It is the limit of speed of thought. The speed of thought is the limit of speed of action. The speed of action is the limit of speed of life."

Deacon Coolidge's speech was

DETWILERS OFFER LAND AS PARK SITE

Three Brothers Would Give City of Toledo, O., 200 Acres on Lake Shore

An offer of 200 acres of land to the city of Toledo, O., to be developed as a public park, has been made by A. K. Detwiler, owner of the Detwiler Building in Los Angeles, and his two brothers, it was learned yesterday in dispatches from the Ohio city.

The land is situated on the shores of Lake Erie and is valued at about \$300,000. It is continuing out to Bay View Park, with certain tracts to be purchased, will provide a park of about 600 acres in extent. Conditions attached to the offer were the acquisition by the city of the other adjacent tracts, the naming of the park "Detwiler Park," and Municipal officials indicated their willingness to agree to these provisions.

In addition, the Detwilers made known their intention of establishing a fund, the income of which would be utilized to give an annual outing to crippled children.

Detwiler left Toledo and came to Los Angeles about two years ago, where he is one of the founders of the Home Telephone Company. He is now engaged in the real estate business. With his brothers, George K. Detwiler of Toledo, and John Y. Detwiler now in New Smyrna, Fla., he carried on, in Toledo, the real estate business established by the father in 1865.

The land in question formed part of a grant made by the United States government to an Indian who served under Gen. St. Clair in the Ohio Indian campaigns, and was the second piece of property owned by the Detwilers in Toledo.

It is the intention to develop the land, which has been under cultivation, with lagoons, lakes and picnics grounds.

MINISTERS WILL AID IN CHEST DRIVE

Sermons on Day Before
Campaign to Stress Need
of Institutions

More than 500 ministers of Los Angeles will aid the Community Chest in the forthcoming appeal, according to word given out yesterday at Chest headquarters, 911 South Grand avenue. The 125th campaign opens November 9. On the morning preceding the start of the drive ministers of the city will stress to their congregations the need of the Chest, and the reason why it should have the whole-hearted support of all citizens.

During the past year 125 charitable and welfare agencies have been aided by the Community Chest. Included in this number are institutions caring for all races, all classes and followers of every denomination.

The year from ten to twenty additional agencies are to unite with the Chest. Approximately forty institutions applied, but since half of them were neither charitable nor educational, they were impossible to admit them. The Chestaving its hands full caring for an addition of twenty more members.

More than 14,000 workers will canvas the city and outlying districts during the campaign period from November 9 to 19. Under the direction of department heads the team organization is being rapidly completed. The task of canvassing 14,000 workers is a difficult one, however, and the Chest asks the support of all those who can serve as volunteers in the appeal.

San Fernando Sewage Plant Inquiry Urged

That the City Engineer be instructed to investigate the operation of the sewage disposal plant in Pacoima, Wash to be owned and operated by the authorities of the city of San Fernando, to determine if there is any danger that the water supply of Los Angeles will be contaminated by the disposal of sewage through the plant, will be the report of the City Council's Sewage and Sanitation Committee, scheduled to be read to the Council this morning.

The report of the committee, of which Councilman E. C. chairman, will recommend that the case the City Engineer declares the water must be further protected, the committee will recommend that the city of San Fernando be required to construct a chlorination plant in the Pacoima Wash.

Councilman Randall will urge the construction of the chlorination plant at once.

High Rating in Sociology Won by Dr. Bogardus

The highest rating on the Pacific Coast in sociological education and research has been given the Department of Sociology at the University of Southern California by Elmer Barnes, Ph.D., national expert in sociology, professor of historical sociology at Smith College and professor of economics and sociology at Amherst College, Massachusetts. In a recent article entitled "American Sociology in 1925," appearing in the Arts and Science Department of the American Academy, Dr. Barnes says:

"In the Far West, the sociological instruction is to be found at other universities, the largest and most active department is the one which has been built up by Dr. S. Bogardus at the University of Southern California in Los Angeles. For undergraduate work it is one of the largest and best equipped departments in the country."

Not content with disseminating information to the groups of students which attend lectures in the classroom at the University of Southern California, the Department of Sociology publishes "The Journal of Applied Sociology" bimonthly, with Dr. Bogardus as editor and members of the staff as associate editors.

COUNCIL IS ASKED FOR PHONE APPROPRIATION

In order to provide telephone service in the International Bank and Equitable buildings, located in the Civic Center, and recently acquired by the city through condemned proceedings for \$1,000,000, the Board of Public Works yesterday asked the City Council for an appropriation of \$761. City departments will be located in the buildings and the proposed telephone switchboard will serve both City Hall annexes.

TRIAL OF ASSERTED DOPE KING NEAR END

A jury in United States District Judge James' court today will receive the case of George Smith, negro asserted dope king of Central Avenue, charged with two counts of violation of narcotics laws. The trial was adjourned yesterday. Smith was arrested by agents in possession of narcotics, it is declared. A similar charge is pending against him in State court.

CONDOLENCE SENT ON CLERK'S DEATH

The Board of Public Utilities and Transportation yesterday directed that a letter of condolence be sent to the widow of John W. Perry, senior clerk and accountant of the department, who dropped dead of heart failure at his home in his home, 2921 Vineyard avenue. Perry was married on August 26 last, and had just moved into his new home. He had been employed by the department for the past four years and was a veteran of the Spanish-American, Philippine and World wars.

BAIL-BOND BROKER ESCAPES

Federal Agents Announce Failure to Locate Man Wanted in Connection With Faulty Security

Department of Justice agents reported yesterday to United States Commissioner Turney that efforts to locate R. Henry Hall, bail-bond broker with an office at 410 California Building, and named by Theodore D. Turner, as the one who had induced him to sign the faulty bond for Angel Zappa, Torchio bombing suspect, have failed in Southern California and the search will be extended to San Francisco.

Hall's name was withheld last night, but he will argue for a reduction in the \$10,000 bond asked by the United States attorney's office as security for his departure from the Los Angeles County jail.

Turner, who has been in jail since Saturday morning, professed willingness yesterday to place all of his personal possessions in the government's care and asked permission to visit his home to obtain the needed funds.

Turner appeared before Commissioner Turney yesterday morning for examination, but proceedings were continued until tomorrow morning at 10 o'clock, when his

counsel will argue for a reduction in the \$10,000 bond asked by the United States attorney's office as security for his departure from the Los Angeles County jail.

EXTEND TIME TO SOLICIT QUOTAS**Forward Movement Raises Sum of \$507,000****Personnel Included in Total Less Than Half****Reorganization of Lagging Groups Planned**

With \$507,000 raised by less than half the personnel, the Southern California Forward Movement yesterday, by unanimous vote, extended the time of closing until each group has opportunity for the full solicitation of its members.

The \$507,000 was raised by twenty-seven groups. Forty-three did not report amounts raised. They reported that they had some money, that they hadn't been able to sell all of their members, that certain members could not have been held up to this time, and that if their time was extended the quotas would be fully realized. It was on this representation that the closing date was postponed.

MAY BE REORGANIZED

In the few groups where no definite fund-raising action has been taken, a reorganization will be effected. This follows the splendid success attending the reorganization of the reality group. Two weeks ago it was taken from the original head and assigned to Harold Jansa, Victor Girard and W. H. Harrison. They gathered nearly \$55,000 from seventy-six realtors at a single meeting. Since that time additional subscriptions have been made, and with many larger operators yet to make known the amounts of their subscriptions the quota in this field is certain to be more than realized.

MESSAGE READ MEETING

George I. Cochran, president of the Pacific Mutual Life Insurance Company and chairman of the Forward Movement, was unable to be present at the temporary Illinois meeting. He sent a letter to the meeting which closed: "I know of nothing which will benefit all of us and each of us more than to advance the activities of Southern California and of the Pacific Coast, and we must advertise intelligently and widely if we wish a continuance of our prosperity."

Among those who spoke were Howard Dingley, executive assistant to Cochran; John P. Burke, Harold Jansa, A. G. Arnol, Harry Chandler, George G. Young and Victor Girard.

Subscriptions to the Southern California Forward Movement will relieve the subscriber of his commitments to the All-Year Club of Southern California and to the Balanced Prosperity Fund of the Chamber of Commerce. These two organizations are financed from the movement.

WILL LECTURE ON MUSIC

Victor Lichtenstein, lecturer on music and musician, will speak this morning before the student body of the University of Southern California on folk music. Lichtenstein will give illustrations of folk music on the violin. He will be assisted by Max Swarthout, professor of piano at the College of Music of the University of Southern California.

ACTRESS SURPRISED BY FATHER'S VISIT

Blanche Mehaffey

Blanche Mehaffey, film actress, received a surprise yesterday. For years her father, Dr. Edward Mehaffey, has been located in Rio de Janeiro.

He has informed Miss Mehaffey and her mother that he would like to see them in Los Angeles. Yesterday he arrived at the Mehaffey home unexpectedly, having been enabled to leave Rio before the time planned.

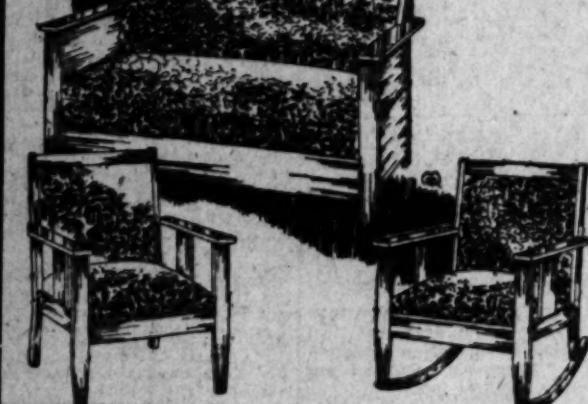

Miss Mehaffey, 21, has played comedy roles for Hal Roach. She is now essaying her first dramatic part in "The Tattered Countess," starring Pola Negri, having been loaned to LaSagra's for the picture.

OIL PROMOTERS' CASE GOES TO JURY TODAY

Arguments were concluded yesterday in the case of W. D. Barnard and four other promoters of the Huntington-Hawthorne Oil and Gas Company charged with using the name to defraud and the case will be given to the Los Angeles District Court today. Judge Henning's court today. The prosecution's case was closed by H. L. Arterberry, special assistant to the United States Attorney-General.

STREET CAR LINE EXTENSION ASKED

The Los Angeles Railway was yesterday requested by the Board of Public Utilities to extend its Pico-street car line to Wilshire Boulevard. That the railway company will favorably consider the request was the report given to the board by General Manager Marsh.

CAR FOR MAYOR, NOT POLICE**Request for Autos to Catch Bandits Deleted, But Council Gives Cryer His Limousine**

Mayor Cryer receives his new limousine but Chief Heath was denied his request for twenty-five additional automobiles for use by the police department in capturing bandits, as a result of yesterday's additional equipment, including the twenty-five automobiles asked for police work, but approved of a new automobile for the Mayor, the ambulances and the patrol wagon. This required an appropriation of \$19,000. Then the Council's Finance Committee tackled the report, and reduced it to \$14,500 by paying for the patrol wagon from bond money.

The City Council was called upon to vote on the committee's report yesterday and approved it. Mayor Cryer, under the new charter, first examines and then approves requests for the city money. So the Mayor said "No" on the Police Commission's new automobile. Councilman Allan voted "No" because no one was able to clear up the mystery as to what is to become of the Mayor's present limousine.

"I was a member of the Council when we bought the Mayor's present car about a year ago," said Councilman Allan. "We paid a great deal of money for it. It was of the executive type, but we were told it would last for years. Now we are asked to buy a new closed car for the Mayor. What is to be done with the present car?"

No one could answer the question, though some of the Councilmen said they "thought" it was to be sold.

Mayor Cryer's new limousine will cost \$5500.

Agricultural implement manufacturers interested in Czechoslovakia are negotiating with Italian bankers for the organization of a company to make such implements in Italy, thus bringing the productions nearer home than at present.

Bay City Woman to Head State Speech Training**Failure of Car Starter Brings Youth's Arrest****Chinese to Celebrate National Day**

The appointment of Mrs. Mabel Gifford as assistant superintendent of public instruction in charge of the department of speech correction, has just been announced by State Superintendent Will C. Wood.

Mrs. Gifford was formerly supervisor of speech correction in San Francisco and connected with the San Francisco Teachers College. She will instruct teachers throughout the State in methods of handling students with speech defects, such as stammering, stuttering and non-speech.

This is a newly created department, and the funds for the support of Mrs. Gifford's work will be supplied by the California Speech Foundation.

Because the starter on an automobile belonging to Police Officer Richardson failed to start, Edwin Peterson, 19-year-old plumber's helper, was arrested.

Brown was unhooked bailiffs

yesterday by Police Judge Richardson's court won for Peterson a reduction of the charge from grand larceny, a felony, to tampering with an automobile, a misdemeanor.

Peterson was sentenced to 180

days in jail.

Inspired by American films and coming to a little girl of North Finchley, Eng., was "fascinated" by playmates with a clothes-line from an upper bedroom window in a "movie stunt" and was seriously injured when impaled on a hook on the way to the ground.

Coal Shortage Situation in East Complicated by Speculators

Where Coal Production is Not Only Halted through the strike now in effect, the miners of the nation are looking forward to a long and cold winter ahead. Photo shows barges of coal held at Brooklyn. (P. & A. photo.)

Northern California Flask "Toter" needs have no fear of Col. Ned Green, prohibition administrator for the district, or his men. When Col. Green took office he announced he was after higher-ups and not concerned with small violators. (P. & A. photo.)

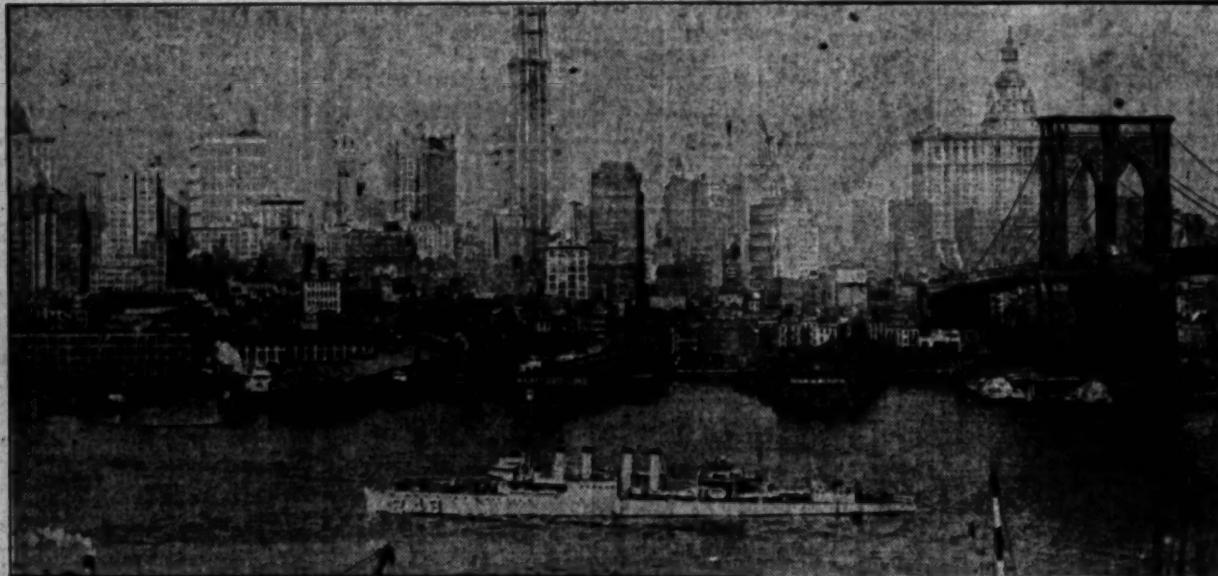

Two Men Were Instantly Killed Yesterday when a plane carrying an ex-army aviator and a student, crashed at Long Beach during stunt flying. The dead are Watson Keerl and Harold Schuck. Photo shows wreckage of plane. (Times photo.)

Where Muscle Shoals Power is Generated is pictured in the above air photo. The low dam in front of the power house is a temporary structure being utilized in the measurement of the flow of water during tests of the water wheels. (P. & A. photo.)

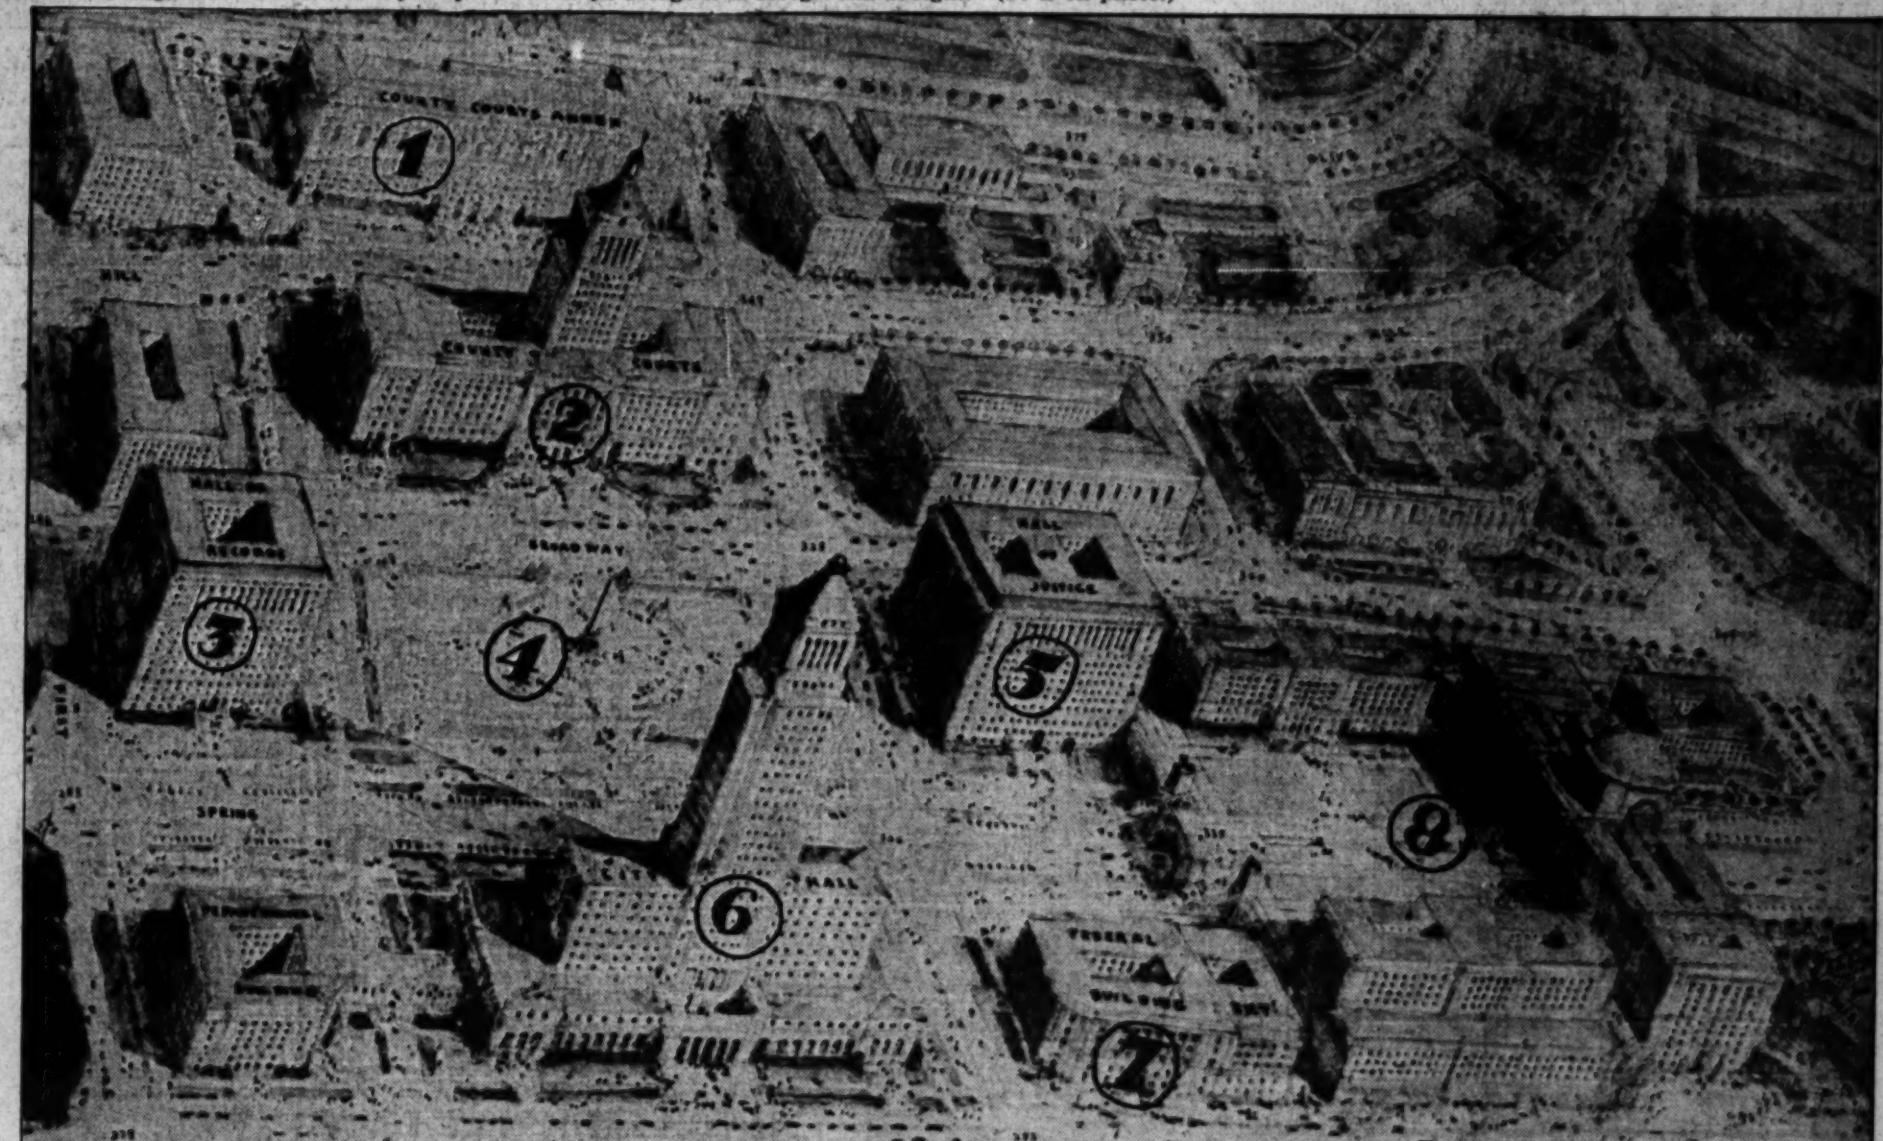

Ford With His Millions Was Powerless to Buy the Clark homestead (pictured above), occupied by Mrs. Albert C. Burrows at Atkinson Depot, near Haverhill, Mass. It is a colonial structure of unusual interest and houses a rare collection of antiques. (P. & A. photo.)

The Most Spectacular Skyline in the World is that which New York presents to the incoming world. The above photo, taken from the heights above East River, shows many of the skyscrapers which make up the skyline. Tallest building (middle) is the Woolworth Building. First building to reader's left from Woolworth is Park Row Building, New York's first skyscraper. Brooklyn Bridge is in foreground at right. (P. & A. photo.)

French Entries in Pulitzer Air Races, Capt. Lemaitre (left) and Capt. Pelletier d'Oisy are promising to spring a surprise in the 180-mile race for two-seated military observation planes with their mysterious new plane. (P. & A. photo.)

The Los Angeles Civic Center will look like this from the air a half century from now, if the Cook-Hall plans presented to the City Council yesterday are accepted and the building program carried through. Only two buildings in the entire area will remain as they are today. The buildings are: (1) County Courts Annex, (2) County Courts, (3) Hall of Records, (4) Plaza, (5) Hall of Justice, (6) City Hall, (7) Federal Building, (8) State Building.

John Scopes is a student at University of Chicago, where he is specializing in post-evolution work. (P. & A. photo.)

President of Chile, M. Quezada (above) recently left Paris and his post as Chilean Minister of Education to take up his new duties at home. He is one of the best known of the corps diplomatic. (P. & A. photo.)

Car Rings Arrest
Chinese Here to Celebrate Nation's
100th Birthday

The Chinese of New York, will celebrate the 100th birthday of their nation at Belle Vue. The new declaration of independence was made this day in 1911. China declared independence from the Manchu rule.

The celebration will consist of Chinese games, songs, speeches of the dead and a

Foreman & Clark 5 factories hand-build this inner front into your suit and overcoat

A THOUSAND Foreman & Clark tailors have cut and stitched the strongest, softest, finest *inner front* that ever anchored smart Fall Style—*underneath* the rich, new woolens in your Foreman & Clark suit and overcoat!

Come in and see it for yourself. We will gladly rip open any Foreman and Clark garment on our racks and show it to you. We will take a knife to the edge of the lining and remove it. We will lay bare the heart of your Foreman and Clark garment and let you see it. Ask to have that done in any other clothing store! Look for such painstaking inner tailoring and splendid quality at any price!

There isn't any finer foundation for an inner front than genuine *linen canvas*. We import it from *Belgium* where they weave it just a little closer and a little softer than anywhere else. There isn't any better team-mate for this linen canvas than pliant *silver Hymo* for collar and lapels, where great strength must be combined with soft-rolled edges! We are the *biggest* users of genuine Hymo in the retail clothing business. There isn't a single item of *inner* material in a

Trade Upstairs and Save \$10

Foreman and Clark garment that isn't the best of its respective kind, to be obtained! There is absolutely *no compromise here!* We buy raw materials and Clark clothes as though they retailed at \$55 and \$60. The 14 *cuts* in Foreman & Clark *costs* come out of middleman and jobber, out of overhead and profit, out of selling costs and distribution costs *not* out of any part or parcel of Foreman and Clark materials or tailoring!

**MORE Styles
NEWER Styles
SMARTER Styles**

No other clothing institution in the city even dreams of a daily style service, direct from the factories that make the clothes! It's not a dream here, but a fact. Not a day goes by without a shipment of new styles from Foreman and Clark factories to Foreman and Clark stores.

Written Guaranty and Personal Follow-up

We build these clothes, we sell them, we guarantee them! And then we follow them up! We aren't satisfied until you are. We don't let our written guarantee, strong as it is, speak only for itself. We demand that you demand that it makes good! We send you our famous 3 months card asking you to find fault. We follow you up months later to know if you are fully satisfied. We stand ready at all times to make

**No Limit to this
Service after
Purchase**

good. We guarantee your purchase for fit, for wear, for style, for satisfaction when you buy it, and we must KNOW it is giving you all those things when you wear it! We consider no sale complete until it brings you back for your next purchase. This business was built on repeat customers. 83 out of every 100 come back . . . the highest average on record in the entire clothing industry!

Open Saturday until 9 p. m.
